

Presentation

Pioneering the Edtech industry for over 20 years

Founded in 1998, Jeux & Co offers to individuals and companies innovative ways to learn efficiently while having fun.

In France, we have collected over 1,5 million registered members, including a community of over 30,000 K-12 Educators on our educational platforms (Jeux-geographiques.com and jeuxpedago.fr), making Jeux & Co one of the leaders in the French EdTech market in terms of B to C traction.

Our Expertise

We are developers of web and mobile platforms and also publishers of online games dedicated to education.

We have published over 1200 educational games + 500 geography games already available on 4 languages (French, English , Spanish, Italian, german)

Mission & Vision

We offer an ecosystem of fun and efficient microlearning resources to drive progress

We aim at providing our micro learning resources for free to make online education accessible to all.

By pursuing this vision, we want to become a Leading Impactful and Fun Global Edtech company

Now Summer 2022 product launch - Kifschool

We are pleased to announce to our huge community base in France the launch of Kifschool our new mobile app. Kifschool is the mobile version of our web platform jeuxpedago.com and will therefore allow our K12 students and educators user base to play and learn from their smartphone or tablet with lots of new micro learning resources and interactive features.

the benefits of our afterschool mobile app

continuing to be a support for Children, Families and Educators

+ de 1200 learning games already approved by a community of + de 30 000 educators, 70 000 parents and 400 000 children.

progress tracker and interaction between learners

statistic, ranking, club, competition between clubs, school holiday activities, giveaways

a modernized micro learning package

learning games + capsule video lessons + lessons to print

a unique inclusive platform

The only virtual classroom that allows children with learning disabilities such as dyslexia to be at the same level as others on their assignment

Google partnership

Pin any of our resources into Google classroom
