

maat

The mobile solution that is good
for the **planet** and your **wallet**.

Innovation for the environment

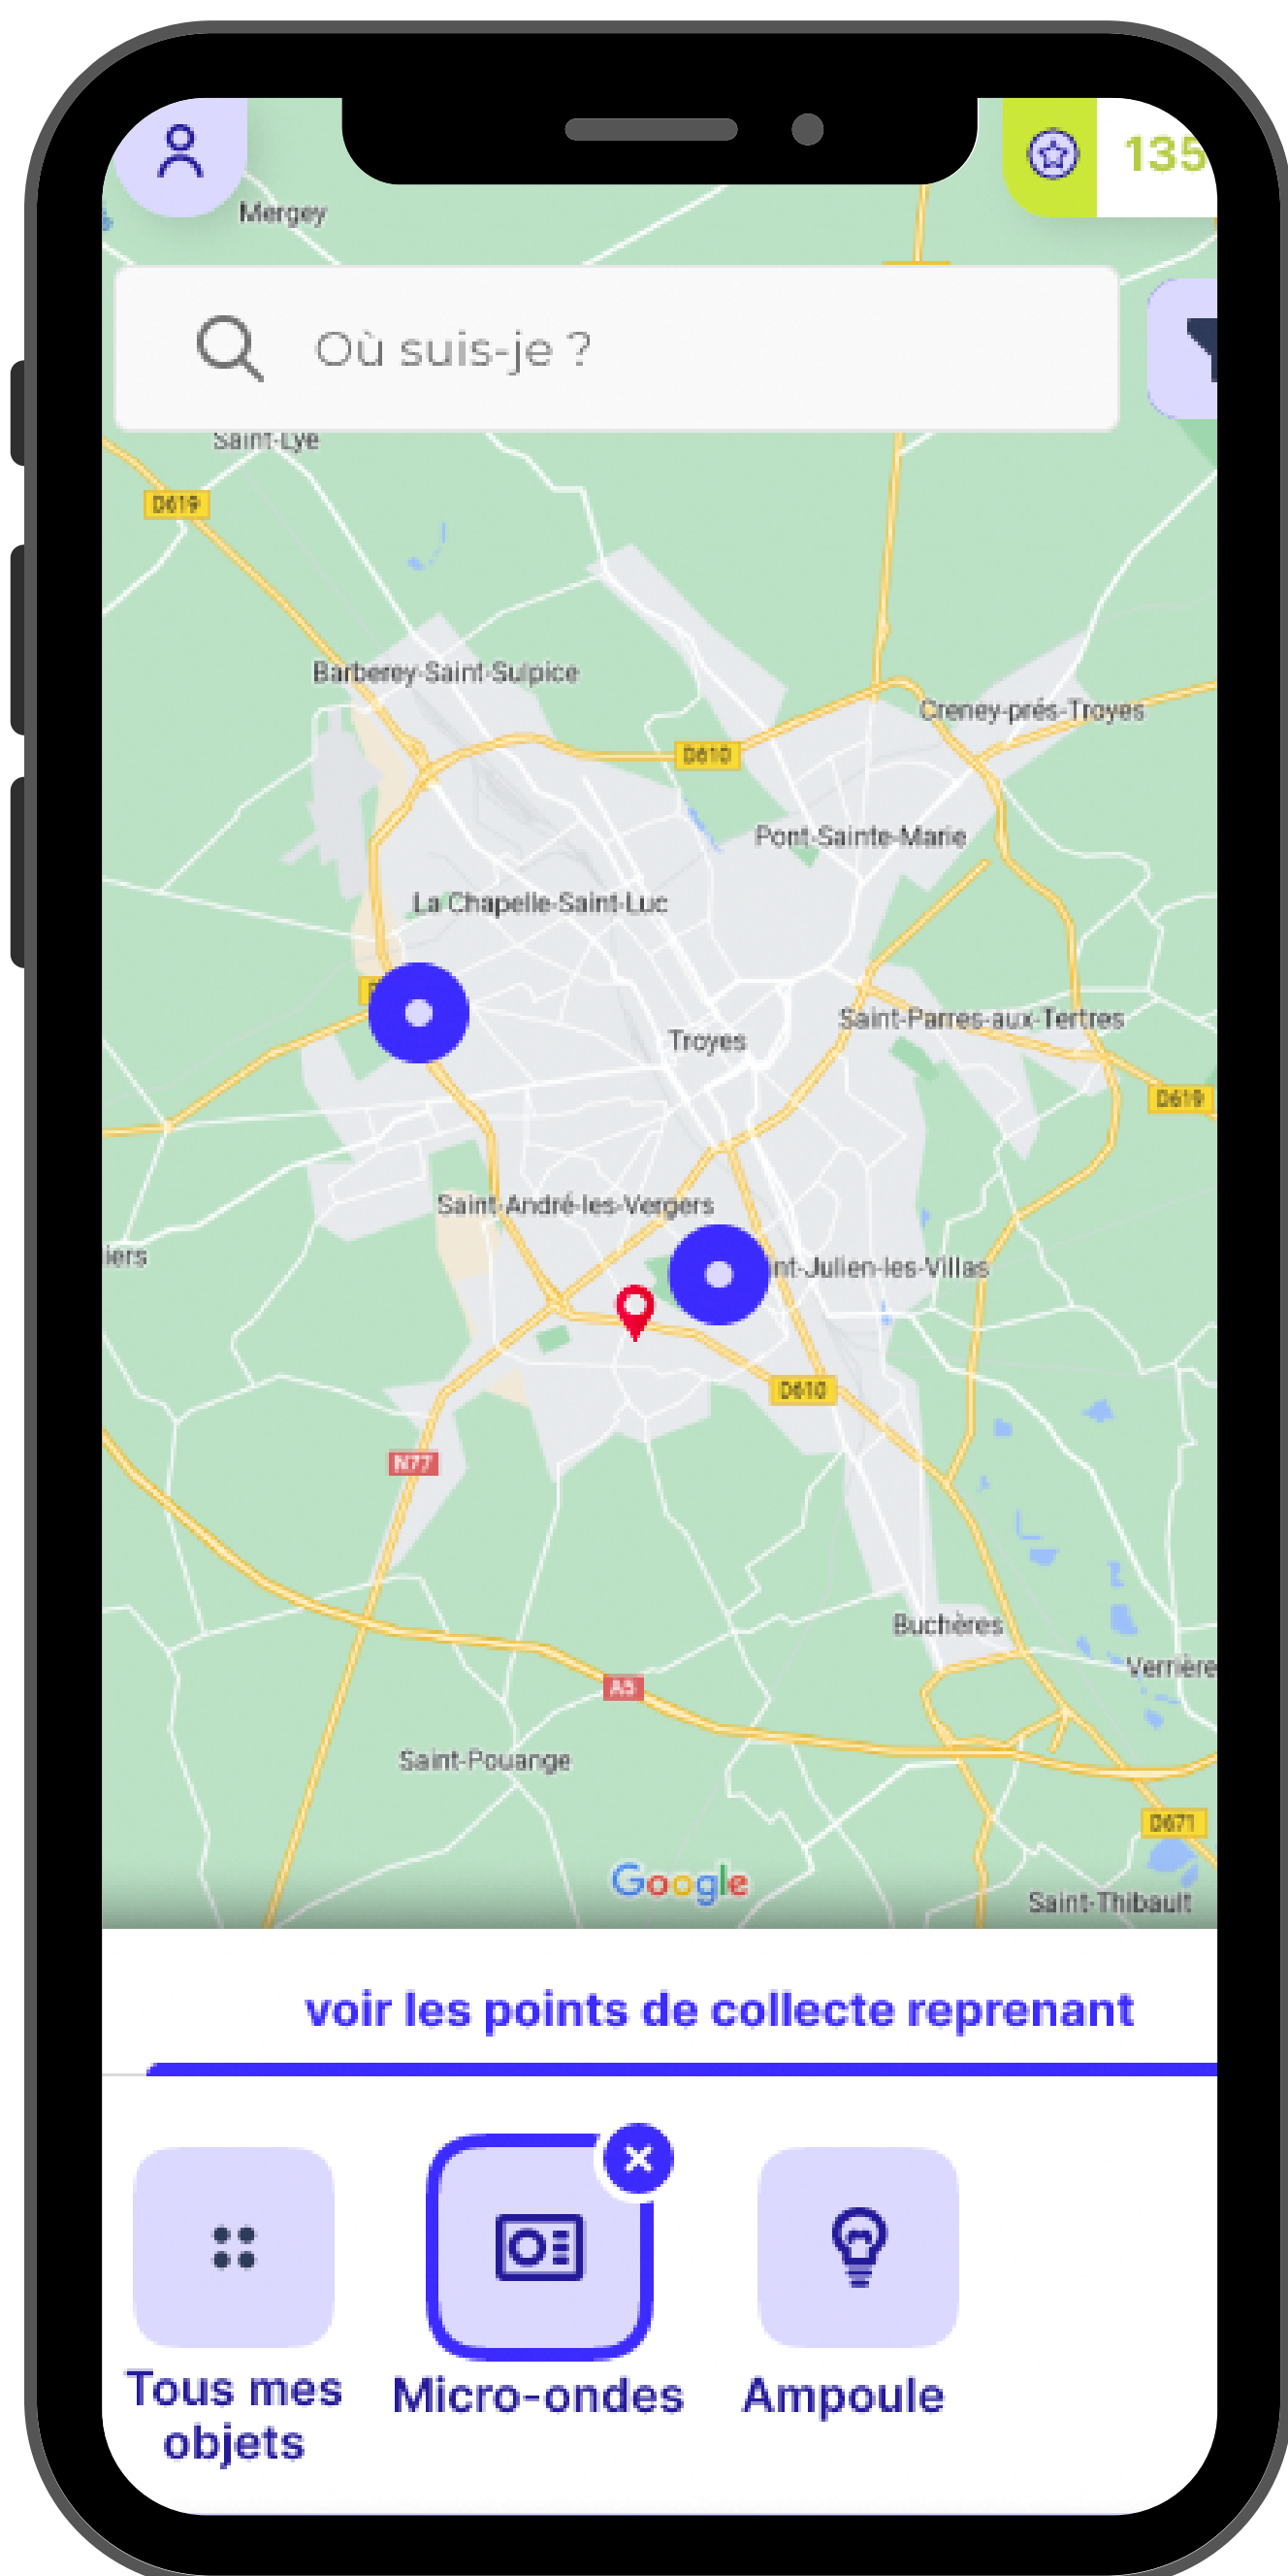

Maat Data develops a simple mobile solution articulated in three steps:

Nothing could be easier,

Thanks to our artificial intelligence, **simply identify any object at the end of its life** and let us guide you...

**we take care of
everything,**

...select the place of deposit of your choice, **even
among those of re-use**, go and deposit your
objects at the end of life...

and you enjoy it.

...and **accumulate points in order to benefit from the rewards** offered by our partners.

—Benefits of being a partner

● The enhancement of your brand image

You enhance your brand image by making it greener and defending the purchasing power of users.

● The loyalty of your customers

Your customers can use their points as a discount on their purchases, a good way to create a strong and permanent link between them and your company.

● Attracting new customers

You attract new customers with an eco-responsible image and by making good deals available all year round.
