

## Why should you meet us at VivaTech?

SlimPay is a leading Fintech player in payments that works with thousands of merchants across Europe. We help merchants collect repeat payments and grow their business.

### Innovation at Vivatech:

We came up with a new way for you to enrol customers in a direct debit plan and collect the first payment immediately.

Our new innovative solution – **SlimCollect** – powered by Open Banking, provides a fast, secure and optimised for the customer experience.

### **Payments are quick, simple and secure.**

Payments are carried out directly from bank to bank – no middle man, no fuss. This means a more secure experience, and customers complete the payment with the banking app they recognise and trust.

### **No more tracking down overdue payments.**

Once a customer approves a payment, they can't request a return. Payments are irreversible. This means less admin work and better cash flow optimisation – both a huge win for merchants.

### **Higher conversion, happier customers.**

Customers are automatically redirected to their bank app to pay. No need to type in long account numbers – they simply approve the payment and are then redirected back to the merchant site.

# They trust us

These companies trust us, why not you?  
Come and meet us at VivaTech and discover what we have to offer.

**Enrol new customers:** Easily acquire new customers and increase conversion with a user-friendly checkout. Streamline digital mandates with an e-signature that collects payment and automatically creates a payment plan in one step.

**Collect your payments:** Manage repeat revenue by offering the payment mix that suits your business needs and customer preferences. Automatically retry failed payments and keep close tabs on your activity from the Dashboard.

**Focus on lifetime value:** Consumer buying behaviours and expectations are evolving. With capabilities that focus on the customer experience, offer an optimised payment journey for customers, who will return to your brand—on their own terms.

### **Why choose SlimPay ?**

First of all, we have *automated fraud controls* and innovative features to help reduce failed payments. Secondly, we have a *24/7 Support* and dedicated Account Manager from implementation to execution. Lastly, we are *trusted and certified by governing boards*. We are an accredited payment institution, we are also passported by the ACPR for financial business across the EU and finally, we are certified with the highest security level by PCI-DSS.

## About SlimPay

As a leading Fintech player, SlimPay allows merchants to create value and deliver a frictionless payment experience across all channels. Our payment solution helps merchants streamline acquisition, increase customer lifetime value and maximise revenue – through direct debit and open banking services.

Launched in 2010, SlimPay has offices in Paris and Madrid, with 100 employees from 20+ nationalities. SlimPay serves customers across several industries, such as Deezer, SFR, EDF, Nespresso and Vattenfall. SlimPay's solutions specifically address the needs of recurring-based businesses, namely:

- Enrolment solution that allows merchants to manage payments on their own initiative;
- Management of unpaid debts due to insufficient funds;
- Freemium subscription fraud management;
- Reduction in payment friction to avoid involuntary churn – in particular due to payment method expirations;
- Integration with the merchant's tech stack (CRM, billing, recovery, etc.).
