

# Hybrid messaging hub for leading brands and retailers

 **Meta**  
Business Partner

# Customers want interaction with brands to be as easy as messaging friends

With Alcméon's cloud technology, use Facebook Messenger, Apple Messages, or WhatsApp as a new powerful customer service, messaging marketing or conversational commerce channel.

**Always on, faster, scalable...**  
With Alcméon, messaging can quickly become your new frontline channel to interact with customers

**A new lead & traffic generation tool**

**Use messaging to increase conversion rates and to sell directly in their favorite mobile apps !**

Alcméon is a powerful hybrid SaaS solution (human + bot) that allows major B2C brands to interact efficiently and at scale with their customers on all the main social media networks and messaging apps: our solution makes it possible to streamline customer relations, organize marketing campaigns, process any type of message and analyze the complete set of statistics.

With Alcméon, you can transform your Messenger, WhatsApp, WeChat or Apple Messages accounts into new customer service, marketing and sales channels.
