## WHO ARE WE ?

**WE ARE THE FIRST COMPANY TO HAVE DESIGNED A SYSTEM SPECIFICALLY FOR SWORN / CERTIFIED TRANSLATORS.**

Launched in 2019, our solution allows you to find a sworn translator within 30 seconds, available in real time and anywhere in the world.

Our team is young, dynamic and passionate about languages, has a large network of 2,500 sworn translators and interpreters around the world. We have developed a quality control process to provide you with a fast and reliable service. We also take care of all your requests, if needed, in 24 hours maximum. Because we deeply care about your activity, we provide a customer service to guide and help you, should you need it.

We are the first solution in France that uses artificial intelligence to simplify the work of translators. Using our software, we help reduce the waiting time from 15-30 days to 48 hours.

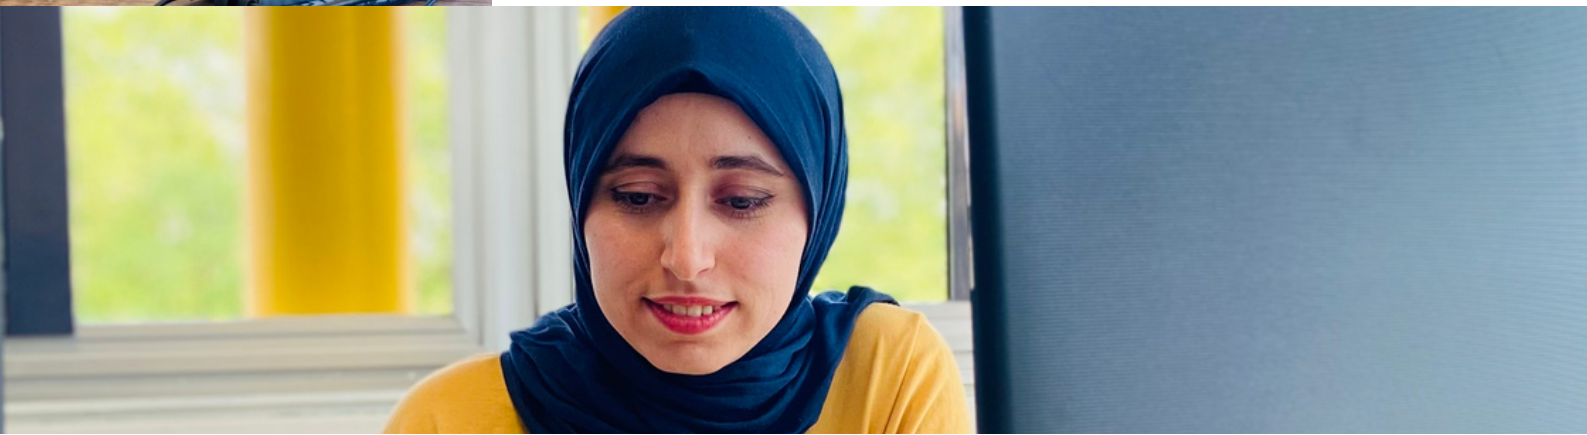

We drastically decrease our translators' production time by providing a project management, from start to finish. That is, from receiving new translation projects in their account to the final delivery to the client, including the automation of templates.

**One of our goals is to help you save time and money.**

HIERØ translates more than 150 languages, including several rare languages such as kiswahili, Wolof, Soninké, Dari, Armenian, Romanian, etc.

We work with different organizations such as humanitarian associations and non-profit organizations, law firms, universities, international companies and administrations. We also work with individuals such as travelers or expatriates.

In 2020, Hiero won the Graines de Boss competition. This prestigious award, handed out by the GROUPE M6, aims to identify European start-ups with the most promising projects.

Entrepreneurs are given a unique opportunity to grow their business while being supported by experienced professionals. Graines de Boss, launched each year on the French programme *Capital*, airing on channel M6, is widely popular and attracts a growing number of entrepreneurs.

A careful selection of the winners and a strong involvement of the members (individual entrepreneur/mentor interview) encourage confidence and leads to the development of the company (funding, contract signing, resource provision, guidance).

The purpose of this programme is to help entrepreneurs succeed by providing specific resources and support. The competition offers financial assistance and guidance from experts in the field.

## Hiero, winner of the 16th edition of Graines de Boss (2020)

By entering this competition, we wanted to prove that our translation solution is one of the best in the world. And we succeeded, as HIERO was one of 16 lucky winners this year.

Today, we continue to prove the quality of our solution, especially through our collaboration with international partners such as Expat.com, Expat.org, etc.

The Graines de Boss award is the result of our hard work, but above all, team efforts made with passion. And that is why we were nominated in the "best start-up" category.

It is a great pleasure and an amazing opportunity to promote our innovative translation management tool and our ability to move forward as a team. Our platform helps you find sworn translators and interpreters in 1 click, wherever you are!

And your sworn translations will be delivered to you within 2 to 48 hours maximum, depending on the number of documents/pages. We translate into more than 100 languages, including rare languages such as Wolof, Bambara, Swahili and Dari, among others.
