# FINANCE AND SERVICES

For companies from Finance and Service sector the key KPIs in terms of procurement software are usually:

- High coverage of the spend management via e-procurement tool including OPEX and CAPEX expenditures
- High adaptation of the tool by end users. Typically, the number of users is counted in thousands
- Reporting with up-to-date cost center structure / charts of accounts / organization structure, reflecting the dynamically changing product/service portfolio of the company

## Dedicated features:

01

**Multi-entity management / constantly changing organization's hierarchies**

02

**Catalogs / price visibility rules**

03

**Multi-entity cost allocation management**

## Typical module setup:

**Supplier Management**

Supplier Information Management  
Third-Party Risk  
Issues Management  
Improvement Plans  
Vendor Master Data Management

**Sourcing**

Sourcing Projects & RFx  
Auctions  
Category Action Plans
