What We Do in 2025

Prevent, contain, control and clean up spills on land, within drainage systems and on water

> Spill care products

- > Absorbents
- > Spill Kits
- > Drum and IBC containment

> Spill response training

- > Spill First Responder
- > Advanced Spill Responder
- > Train the Trainer
- > Tactical Spill Responder
- > Chemical Hazard Awareness

> Industrial marine

- > PVC and PU booms
- > Skimmers
- > Temporary storage tanks

> Dispersant delivery systems

- > Marine
 - > BOATSPRAY
 - > ECOSPRAY
 - > CLEARSPRAY
- > Aerial
 - > NIMBUS
 - > STRATUS

> Liquid monitoring and detection systems

- > Oil water separator alarms
- > Grease alarms
- > Sewage alarms
- > High Level Alarms

> Supply, commissioning and servicing of:

- > Drainage systems
- > Separators
- > Drain closure devices

Darcy Spillcare

Working together for a cleaner tomorrow

A leading environmental protection and spill care product manufacturer, helping businesses stay compliant with an extensive range of pollution prevention products and expert spill response training courses.

How Darcy Spillcare Can Help

On Land

Equipment to contain spills on hard surfaces and protect the drainage network

- > Spill kits
- > Liquid containment
- > Drain protection

On Water

Equipment to contain spills and protect the wider environment

- > Booms
- > Storage tanks
- > Absorbents

Firewater Runoff

Prevent contaminated firewater entering watercourses

- > Draintector drain closure systems
- > Envirovalve portable drain bladder valve

Spill Response Training

Four training courses delivered under the Responder brand

- > Spill First Responder
- > Spill First Responder Train the Trainer
- > Advanced Spill Responder
- > Chemical Hazard Awareness

Highly qualified trainers who have in-depth knowledge of not only the right products to use, but also the relevant legislation.

“Outstanding course pitched at exactly the right level and pace. The practical element was thought provoking and informative. I would highly recommend.”

Auditing

Full Site Audit

An in-depth audit of the potential environmental risks on your site and what could be impacted if something went wrong

Spill Kit Audit

An audit to check you have the right spill kits in the right places to reduce risks of a pollution incident

Trident Industrial Marine

Working together for a cleaner tomorrow

Leading provider of specialised industrial marine oil pollution prevention, containment and recovery systems. Developed for the marine and harbour industry but applicable to all industry sectors where the potential to pollute the watercourse exists.

How Trident Industrial Marine Can Help

Spill Containment

Contain liquid spills on water:

- > Containment booms
- > Inflatable booms
- > Debris booms
- > Temporary storage tanks

Pollution Removal

Remove pollutants from water:

- > Pumps
- > Skimmers
- > Oil spill response vessels
- > Oil water separators

Deployment

For use with booms:

- > Tow bridles
- > Boom bank ends
- > Boom connectors
- > Boom inflators
- > Tide slides

Ayles Fernie

Working together for a cleaner tomorrow

World leading marine and aerial oil dispersant spray system designers and manufacturers.

Over 20 years' experience supporting businesses around the world with bespoke oil dispersant spray systems alongside a comprehensive range of proven solutions.

How Ayles Fernie Can Help

Marine Systems

Diesel powered portable units:

- > BOATSPRAY
- > ECOSPRAY

Electric installed systems:

- > CLEARSPRAY

Aircraft Systems

For fixed-wing aircraft:

- > NIMBUS

To be underslung from a helicopter:

- > STRATUS

Application Devices

For use with marine oil dispersant spray systems:

- > AFEDO™ nozzles
- > Spray arms
- > Hand lances

Aquasentry

Working together for a cleaner tomorrow

Aquasentry, part of the Darcy Group, manufactures and supplies an exclusive range of liquid monitoring and detection systems that provide affordable solutions to comply with regulations and EA guidelines, minimise waste management costs and prevent pollution of the watercourse.

How Aquasentry Can Help

Controls and Alarms

Prevent pollution entering the watercourse and reduce waste management costs

- > Separator Alarms
- > Sewage Alarms
- > High Level Alarms

Drain Closure

Instant security against the polluting of controlled waters and wider environment

- > Hydraulic Drain Closure Device
- > Draintector

Bund Dewatering

Monitor and dewater bunds to retain 110% capacity and safely pump water into drainage system

- > Bund Water Control Unit
- > BWCU Skimmer

How Aquasentry Can Help

Drainage Services

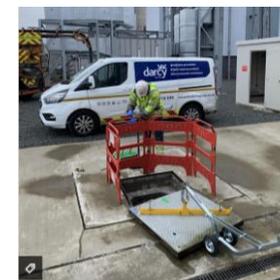

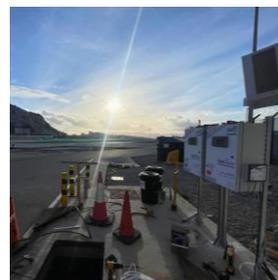

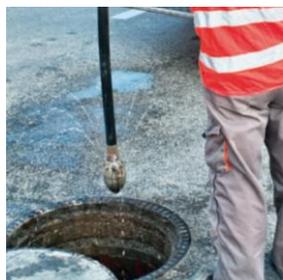

Keeping your drainage systems operating efficiently and within the emerging licence permit needs of COMAH and EPR regulated sites based on CIRIA C736

- > Drain inspection
- > Drain repairs
- > Drain cleansing
- > Drain mapping

Installation, Commission and Servicing

Keeping your business compliant and your pollution prevention equipment operating effectively and efficiently

- > Separators
- > Drain closure devices
- > Bund dewatering systems
- > Pollution monitoring alarms
- > Pump stations

Why Darcy Group?

- We've been creating sustainable solutions since 1935
- Our sales team has over 170 years' collective experience in the industry
- An Employee-Owned Trust since 2025 - securing the future of the business with the employees at its heart
- Trusted by spill responders, OEMs and organisations around the world, including household names and government agencies.

The Darcy Promise

Sustainable

Being environmentally friendly is at the forefront of what we do. Whether it's by offering emergency support to our clients, to using recycled materials in our socks, cushions and booms – we are dedicated to finding green solutions where possible.

Cost-effective

We believe that every company should be able to afford high-quality spill care solutions and services. We provide all our clients with product options to suit all budgets, helping everyone stay compliant no matter their need.

Committed

Not only are our experts dedicated to maintaining the quality of our products and services to ensure we are best supporting our clientele, but we are committed to finding the right product for the right situation, every time.

Experts

Whether you're looking for product information, a training course, or need emergency spill care support, we pride ourselves on giving all our clients expert advice from the experts themselves. With our hugely experienced team, you can be assured that we will find the right solution for you.
