

• TM4 SUPPORT • TRANSPORT EQUIPMENT FOR QUADS

WHAT IS TRACT'MOI?

Tract'moi is the leading brand for agricultural mobility solutions. It offers a range of equipment designed to improve the daily life and movements of farmers. The TM2 support allows the transport of a two-wheel auxiliary vehicle at the front or rear of the tractor with a range of quick-attach weights from 500 to 900 kg! Our new TM4 support, on the other hand, enables the transport of a quad!

PRESENTATION OF THE TM4 SUPPORT

The TM4 is a specially designed and manufactured piece of equipment for transporting quads. It can be attached to the front or rear of the tractor using the three-point hitch, providing great flexibility. Its numerous adjustment features allow it to adapt to any quad model in just a few moments. When the quad is not being transported, the TM4 folds up so that there is no offset.

THE NEW TM4
SUPPORT
