# SYNOPSIS

Does football have the power to unite the world? Imagine, 11 eleven year-old soccer loving kids from 11 different countries gathering to learn how their cultures, families and common passion shape their development. As these kids embark upon a journey of a lifetime to meet in one place, they only have a few days to prepare for the biggest game of their lives and in the process evolve into something more than a soccer team...

Filmed over a five-year period, ELEVEN follows the stories of a diverse and dynamic group of kids [from the 2014 World Cup in Brazil to the 2018 World Cup in Russia] ending up in Switzerland at the Stade de Geneve on April 21st, 2018 in front of 22,000 people [as part of the UEFA/UN event "Match for Solidarity"]

From training sessions to field trips, we witness the kids transform from a group of eleven strangers into a cohesive unified football team within days, as we rediscover the power of play.

ELEVEN is an exploration and celebration of the passion for football around the world through the eyes of kids. We discover their passion for the game, how it affects their lives and can alleviate trauma yet lead them to a brighter future. Through the game we witness the benefits of diversity in sport and society through the lens of being part of a team.

On April 21st, 2018 in Stade de Geneve in front of thirty-two of the greatest football legends and thousands of fans, eleven young players from around the world line up for one of the most special games in football history. Truly, a moment to remember.
