WPM BANDSAW – 60/80

Saw wheels, 1100 mm x 100 mm

The WPM Bandsaw comes with a dual saw solution. The deactivated saw can therefore be maintained during production which minimizes downtime. Thanks to the tiltable saw column the workpiece is processed in the machine with optimum stability which allows maximum speed even at tilted splitting.

ZOOM

HIGHLIGHTS

- ✓ Speeds up to 80 m per minute
- ✓ Configurable single or twin, right or left

✓ Superior tech level
