

OPTIMIZATION ROLLER & BEARINGS

Optimization of bearings, rolls and dies to prolong maintenance intervals

CERAMIC LUBRICANT

Special ceramic grease to reduce consumption and reduce breakdowns

AUTOMATIC LUBRICATION

Lubrication system with monitoring. Minimal doses of lubricant on the right time and right spot

INNOVATIVE SOLUTIONS FOR
EFFICIENT PELLET PRODUCTION

YOUR PROFIT

Reduced lubricant consumption

- less stock
- less waste
- less transport
- expected lifetime extension

Monitoring of lubrication

- exact data of consumption
- direct feedback from divider

Upgrade of rolls

- better quality of end product
- more profit
- longer production runs

Upgrade of bearings

- less downtime
- better performance

LESS DOWNTIME
MORE PRODUCTION
MORE PROFIT
