

# W-7240 STAND ALONE AUTO-SWAGE

## COMBINATION BACKFEED / SWAGE

The Wright W-7240 Auto Swage improves swage uniformity and reduces labor. Easy to operate and maintain due to the use of standard swage technology

combined with P.L.C. electronic control. The Auto Swage can be used in conjunction with existing profilers as a backfeed or stand-alone in an independent loop.

Specifications and availability subject to change without notice.

## SAW SHARPENING SYSTEMS

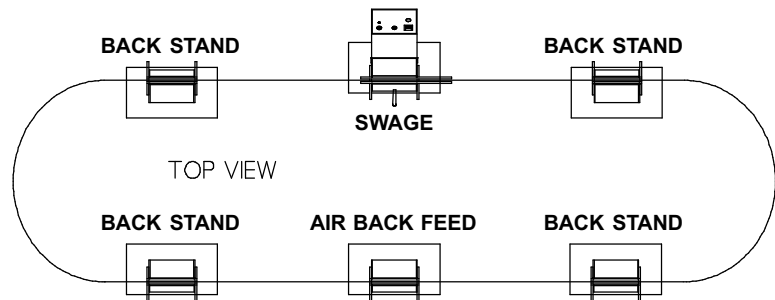

# W-7240 STAND ALONE AUTO-SWAGE

## Features

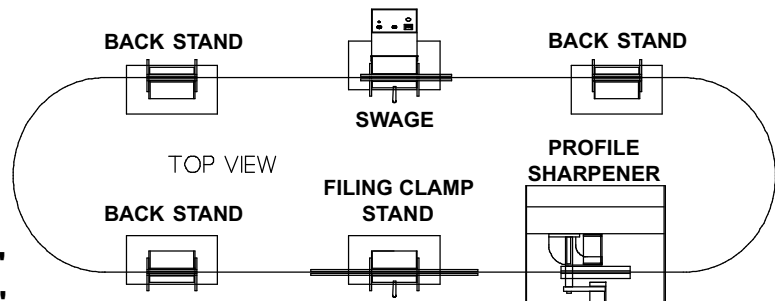

- P.L.C. CONTROLLED
- QUICK DISCONNECT HEAD
- TOOTH COUNTER
- ADJUSTABLE SPEED
- ADJUSTABLE PRESSURE
- EASY TO OPERATE
- EASY TO MAINTAIN

## Technical

A standard hand swage head with an air powered clamp is combined with a P.L.C. controller. The tooth counter stops the swage or can be programmed to continue backfeeding or can provide control to stop companion profiler.
