

## Safety & Ergonomics

Repetitive motion injuries are costly to a sawmill but also painful for the Filer, The Magnum Swage was created to reduce the effort and reduce repetitive motion concerns on swaging and also produce a proper swage for improved saw performance.

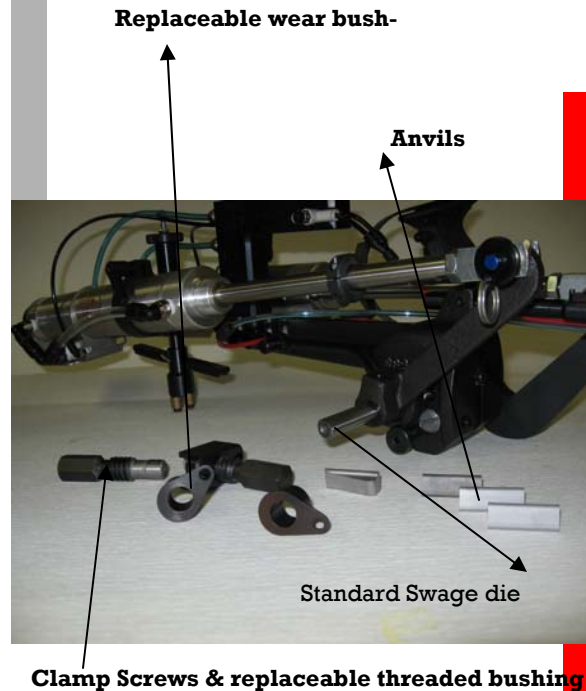

Fully Adjustable handles for added comfort and ergonomics

Replaceable hardened bushings for years of service

## Replaceable bushing/reduce operating cost

Magnum swage capable of operating both a 1/2" die or 5/8" die for years of flexibility
