

## HM-SKI

**For the production of skis:**

- L: 600 to 1600 mm (up to 3500 mm)
- W: 70 to 120 mm
- 2 to 3(5) blocks
- Adjustable nail pattern

*Optional: stacker*

From €950/ month (excl. VAT)\*

## HM-H

**For assembling decks and/or pallets:**

- 2 or more horizontal working areas
- Different sizes available
- 1 to 2 nailing tools
- Table surface in wood or hardened steel

*Most flexible solution*

From €1.190/ month (excl. VAT)\*

↑ PRODUCTION

↑ QUALITY

↑ SAFETY

↓ COSTS

We design and build (semi-) automatic machines and lines for the manufacturing of pallets, crates, timber frame construction, furniture, garden etc. Starting from a basic concept to adding additional automation modules to your requirements.

**Your solution is an unique machine, automated according your production needs**

## HM-V

**For assembling decks and/or pallets:**

- 2 or more 60 ° angled workstations
- Different sizes available
- 1 to 2 nailing tools
- Table surface in wood or hardened steel

*An ergonomic solution*

From €1.200 / month (excl. VAT)\*

## HM-VR

**For assembling pallets:**

- 1 work area
- Product size: Max: 1800 x 3000 mm
- 3 to 8 nailers
- Auto program
- Stacking robot

*Collaboration between man and machine*

From € 4.850 / month (excl. VAT)\*

\*Prices valid until 31/12/23. This is a proposal subject to approval by Siemens Financial Services.

## HM-C: « The polyvalent one »

For assembling of decks and pallets:

- 1 working area
- Board feeder
- Product size:  
Max: 1500 x 1500 mm  
(optional up to max. 2500 x 6000 mm)
- Semi- or full automatic adjustment

*The HM-C is a versatile machine that produces pallets at its own pace. The operator only loads wood from a fixed loading zone. This innovative design allows the machine to work autonomously or it can be integrated in an automatic assembly line. It offers a solution for large format pallets up to 6000 mm.*

From €2.050 / month (excl. VAT)\*

\*Prices valid until 31/12/23. This is a proposal subject to approval by Siemens Financial Services.

## HM-ROB G2: « The next level »

For full automatic assembly of decks, 2 way and 4 way pallets

- Product sizes:
- Mini: 600 x 600 mm
- Max: 1200 x 1500 mm  
(optional up to max. 2500 x 4500 mm)
- Automatic unstacking of wood bundles
- Semi or full automatic adjustment
- Auto program creation
- Autonomy up to 2 hours (depending on nails and wood type)

*The HM-ROB G2 is a flexible and autonomous assembly line. Information about reloading the fasteners, replenishing wood or removing the finished products is automatically sent to the operator via SMS. It can offer a solution for large format pallets up to 4500 mm.*

+2000 clients in 49 countries

We can present you a financing plan\* via our partner Siemens Financial Services and offer you a complete solution for your investment.
