Introduction

Toxi Plan is a leading provider of Toxicology and Ecotoxicology services dedicated to assess the potential risks associated with finished products and environmental contaminants. We are specialized in the delivery of comprehensive toxicological and ecotoxicological solutions that support industries, governmental agencies, and research institutions or any form of organization. We help them to make informed decisions in order to protect human health and the environment.

Mission

Protecting health and the environment

At Toxi Plan, our mission is to improve scientific knowledge, promote safety, and safeguard the environment through cutting-edge toxicology and ecotoxicology research and services. We strive to provide accurate and reliable data that empowers our clients to make responsible choices for a sustainable future.

We are dedicated to spread scientific knowledge, promoting sustainable practices, and enabling informed decision-making for a healthier and more sustainable world."

We anticipate safety for you

Vision

Our vision at Toxi Plan is to be a global leader in toxicology and ecotoxicology services and research. We aspire to create a future where every chemical, product, and environmental decision is made with the outmost consideration for safety, health, and ecological well-being. Through innovation, integrity, and collaboration, we aim to be the trusted partner in safeguarding the planet and its inhabitants.

We anticipate safety for you

Values

- 1. Scientific Excellence:** We are committed to upholding the highest standards of scientific rigor and accuracy in all our services and research.
- 2. Environmental Stewardship:** We prioritize the well-being of the environment and strive to minimize our ecological footprint through sustainable practices.
- 3. Integrity and Ethics:** We operate with integrity, transparency, and ethical conduct in every aspect of our business.

4. Client-Centric Approach: Our clients' success and satisfaction are at the heart of everything we do. We work closely with our clients to meet their unique needs and exceed their expectations.

5. Innovation: We embrace innovation and continuously seek new methods and technologies to improve our services and contribute to the field of toxicology and ecotoxicology.

6. Collaboration: We believe in the power of collaboration and partnerships, both internally and externally, to achieve our mission and vision effectively.

7. Diversity and Inclusion: We value diversity and inclusiveness, as they enrich our perspectives and enable us to better address complex challenges.

8. Community Engagement: We actively engage with our communities and stakeholders to share knowledge, raise awareness, and promote responsible practices.

9. Safety: We prioritize the safety of all living organisms, including humans, animals, and ecosystems, in everything we do.

10. Continuous Improvement: We are committed to ongoing learning and improvement, ensuring that we remain at the forefront of our field and provide the best possible solutions to our clients.

Toxicological and Ecotoxicological Assessments

- Regulatory Compliance
- Human health and environmental health risk assessments
- Study of the ecological consequences of environmental pollution by toxic substances.

Consulting and Regulatory Support

- Expert guidance on regulatory compliance
- Study design and protocol development
- Data interpretation and risk assessment
- Regulatory submission assistance
- Conformity with international standards

eToxiSafe

"eToxiSafe" is a certification which ensures a product's environmental safety towards aquatic and/or terrestrial ecosystems. Proof of quality and based on scientific studies, the certification was presented to the UNEP in March 2020 and is recognised as a commitment to environmental protection.

Why Choosing Toxi Plan ?

EXPERTISE

Our team of experienced toxicologists and ecotoxicologists brings a wealth of knowledge and expertise to every project.

QUALITY ASSURANCE

We adhere to the highest standards of quality assurance to ensure the accuracy and reliability of our data

ENVIRONMENTAL RESPONSIBILITY

We are committed to minimizing our environmental footprint by adopting sustainable practices in our operations as well as raise awareness of the environmental causes.
