#### OUR MISSION

# We prioritize animal health and longevity.

As a manufacturer with many years of experience in the supplement industry, we offer comprehensive contract services for companies seeking the highest quality products. We operate a modern and fully equipped production facility, allowing us complete control over the production process – from raw material selection to the final product.

We develop innovative and effective formulations based on the highest quality raw materials, free from artificial additives and preservatives. Our team of experts, working in collaboration with veterinarians and animal nutrition specialists, ensures that each product meets rigorous quality and safety standards.

We are ready to collaborate with partners who value reliable, proven products for animals. With our resources and expertise, we can provide solutions perfectly tailored to market needs and customer requirements.

# Salmon oil

Our high-quality Salmon Oil is a natural supplement rich in omega-3 fatty acids, designed to support the health and well-being of dogs and cats. Sourced from sustainable fish, this oil provides essential nutrients that promote a shiny coat, healthy skin, joint mobility, and overall vitality.

## Key Benefits:

- **Healthy Skin & Coat:** Salmon Oil supports a soft, shiny coat and helps alleviate dry, itchy skin.
- **Joint & Mobility Support:** The anti-inflammatory properties of omega-3s aid in joint health, especially beneficial for active or aging pets.
- **Immune System Boost:** Natural fatty acids in Salmon Oil help strengthen the immune system, enhancing your pet's resilience.

## Available Options:

**Bottle Sizes:** Choose from **250 ml**, **500 ml**, or **1000 ml** to suit your pet's needs and consumption rate.

- **Convenient Dispenser:** Available with or without a pump dispenser for easy, mess-free dosing.

**Our Salmon Oil is free from artificial additives, ensuring a pure, natural supplement to support your pet's health. Perfect for daily use, simply add to your pet's food for a boost of essential nutrients that they'll love.**

# Collaboration Benefits

## **Made in the European Union**

Our products are manufactured in the EU, ensuring high quality and adherence to European standards.

## **Export Documentation**

We provide export documents for shipments within the EU and worldwide, including Certificate of Origin and Veterinary Health Certificate.

## **Certificate of Analysis (CoA)**

Each batch is tested with detailed analysis results from **J.S. Hamilton** Laboratories, ensuring reliability and accuracy.

## **GMP+ Certified**

Our facilities comply with GMP+ standards, guaranteeing quality and safety in every product batch.

## **No Artificial Color, Flavors or Preservatives**

Our products contain only natural ingredients with no artificial colors, flavors or preservatives ensuring a healthy choice for all pets.
