PROMEDIVET

“The idea of our company was born out of our commitment to animals. This is how we founded PROMEDIVET SRL., which deals with the production and distribution of 100% natural, plant-based animal health products. Our goal is the successful use of medicinal plants in veterinary medicine and animal care.

We are proud to be a Romanian company that has developed a lot in the last 25 years in a constantly changing and growing market.

Our company’s headquarters and production plant are located in Sovata, Mureş County, Romania.

Our team consists of 75 people, including laboratory technicians and veterinarians who have extensive experience in this field. Together, we created a wide range of products: from veterinary cosmetics to food supplements and biocides.

The two criteria that served as a solid foundation for our company and that we have always used as a guideline: the use of high-quality raw materials and user comfort.”

Gives the hooves a beautiful black color!

HERBA-TOP®

NO WAITING TIME

HERBA-TOP® BRONCHO

expectorant, antitussive

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has expectorant, antiinflammatory, antialergic, antitussive properties. Soothes cough and cleans the airways, fluidifying bronchial secretions and the mucus. It is recommended as adjuvant in respiratory diseases, in the treatment of pharyngitis, acute and chronic bronchitis, in acute tracheo-bronchitis, bronchial asthma.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

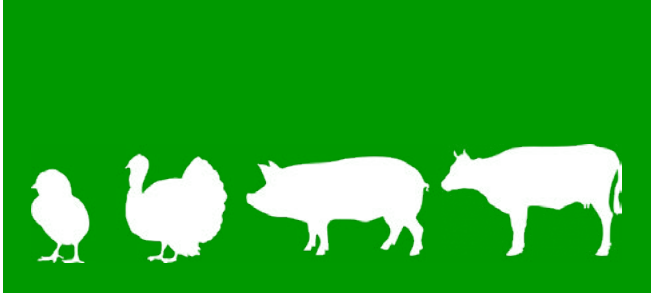

HERBA-TOP® PNEUMO

respiratory diseases

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has antiseptic, antiinflammatory, expectorant, antitussive properties, soothes coughing. Improves blood circulation. Fluidises bronchial secretion, releases the sinuses, bronchi and lungs, preventing respiratory diseases and arterial diseases. It is recommended as an adjuvant in lung diseases, acute and chronic broncho-pneumonia, pulmonary emphysema, pleuritis, spastic bronchitis, bronchial asthma, pharyngitis, acute and chronic bronchitis, in acute tracheo-bronchitis. It can be used in convalescence after respiratory and circulatory diseases.

HERBA-TOP®

NO WAITING TIME

HERBA-TOP® ENTERO

digestive diseases

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has antiseptic, antiinflammatory, antispasmodic, hepatoprotective, choleric, antidiarrheal, antihemoragic, antiemetic, local analgesic, astringent properties. It is recommended in enterocolitis, chronic and acute diarrhea, dysentery, abdominal pain with cramps, intestinal bloating, lack of appetite, anemia. Detoxifies the organism, eliminates the putrefaction bacteria from the intestins, normalises the intestinal flora.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

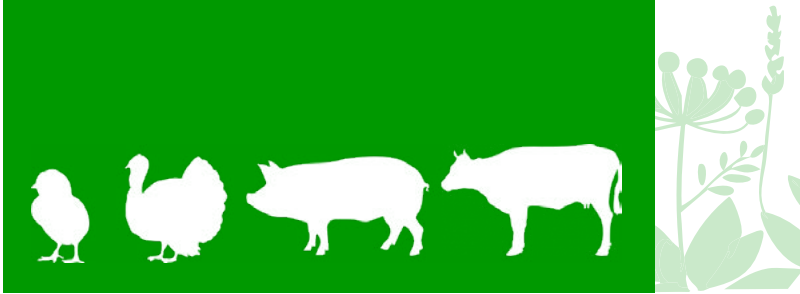

HERBA-TOP® DIGEST

hepatoprotective

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has stomachic, digestive, hepatoprotective properties, stimulates the hepato-biliary activity, calms stomach and intestine spasms, eliminates the gases from the stomach and intestines. It is recommended as adjuvant in anorexia, lack of appetite, gastrointestinal dyspepsia, gastric hypoacidity, chronic meteorism, constipation, in liver diseases, on weakened animals, convalescence (improving digestion and appetite).

HERBA-TOP®

NO WAITING TIME

HERBA-TOP® COCCI-PLUS

coccidiosis

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons and rabbits. It has coccidiostatic, antiprotozoal, antiseptic, antiinflammatory, antispasmodic, hepatoprotective, choleric, astringent, immunomodulatory properties. It is recommended as an adjuvant for the prevention and treatment of coccidiosis and for the prevention of other protozoa (trichomoniasis, histomoniasis, giardiasis). It can be associated with other antiprotozoal drugs, potentiating their effect. Increases the weight gain.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

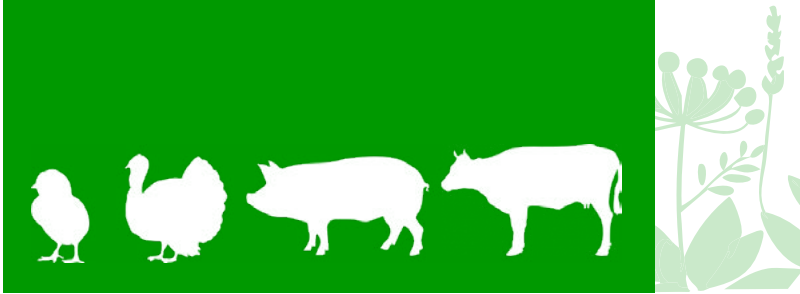

HERBA-TOP® ECTO-PLUS

oral antiectoparasitic, antistress

- 100 ml, 1 L bottle -

It is a concentrated natural product, used in drinking water, as adjuvant in the treatment of infestations with fleas and mites on animals. Contains fat-soluble essential oils (linalool, thujon, thimol, naftaquinone, azulene, geraniol, natural pyrethroids) with insecticide and repellent properties. The product affects the nervous system of the insects, taking its effect gradually. The active substances are dissolving in fats and are eliminated gradually from the organism. The blood becomes toxic for the parasites. Due to the fact, that it contains a complex mixture of insecticide substances, the insects do not develop resistance to the product. The product is not toxic for mammals and birds.

HERBA-TOP[®]

NO WAITING TIME

HERBA-TOP[®] SALMONELLA

antisalmonella

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, birds, pigeons, turkeys, rabbits. It is effective in treating fungicidal and viral infections of the digestive tract. It has anti-inflammatory, antidiarrheal, antihemorrhagic, antiemetic, local analgesic, antispasmodic and astringent properties. It is indicated as an adjuvant in Salmonella sp., In enterocolitis, chronic and acute diarrhea, dysentery, abdominal pain with cramps, intestinal bloating.

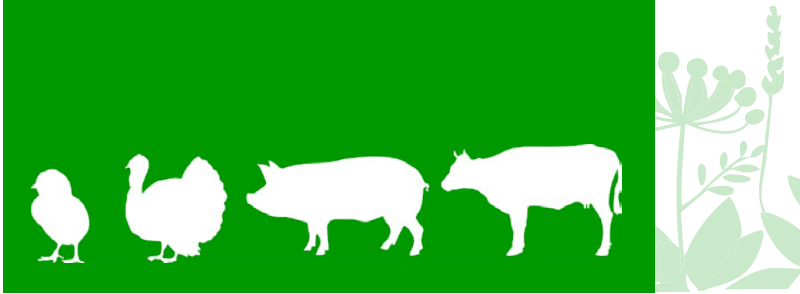

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

HERBA-TOP[®] ANTHELMINTIC

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, pigeons and rabbits. It has anthelmintic, antiseptic, anti-inflammatory, antispasmodic, hepato-protective, choleric and astringent properties. It is recommended as an adjuvant in infections with helminths. It can be associated with anthelmintic medication, potentiating their effects. It increases weight gain.

HERBA-TOP®

NO WAITING TIME

HERBA-TOP® IMMUNO

immunostimulatory

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has immunostimulatory properties, increases the unspecific immunity of the organism, stimulates the hepatobiliary activity, cleansing, shortens the period of convalescence. It is recommended for strengthening the immune system, for improving the resistance of the organism against different bacterial, viral, mycotic or parasitic diseases and as an adjuvant in the treatment of these diseases, shortening the convalescence.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

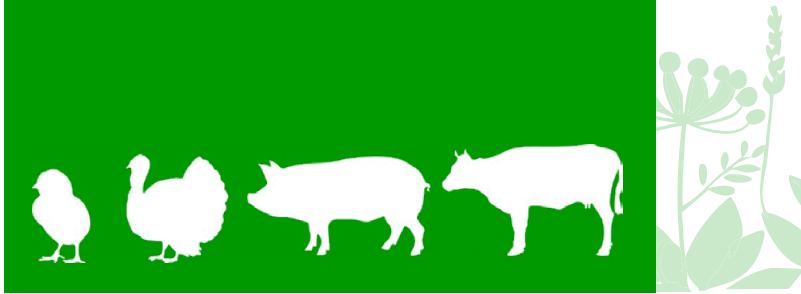

HERBA-TOP® TRICHO-PLUS

trichomoniasis, histomoniasis

- 100 ml, 1 L bottle -

It is recommended for horses, large and small ruminants, swine, poultry, turkeys, pigeons, rabbits. It has immunostimulatory properties, increases the unspecific immunity of the organism, stimulates the hepatobiliary activity, cleansing, shortens the period of convalescence. It is recommended for strengthening the immune system, for improving the resistance of the organism against different bacterial, viral, mycotic or parasitic diseases and as an adjuvant in the treatment of these diseases, shortening the convalescence.

HERBA-TOP®

NO WAITING TIME

HERBA-TOP® ANTISTRESS

- 100 ml, 1 L bottle -

It is recommended for all species. It has properties that support the nervous system and mental functions, contributing to the management of stressful situations. Increases the ability to adapt to the changing environmental conditions, supports good mood, improving the quality of sleep. Helps the animal to relax and remain calm in stressful situations, promoting the recovery of the body after stressful periods. Reduces the level of free radicals and other stress factors that can cause inflammation in the body.

HERBA-TOP® ANTIOXIDANT

- 100 ml, 1 L bottle -

It is recommended for all species. It has a high content of antioxidants and essential nutrients for pets with neurological problems. It has a role in detoxifying and strengthening of the body. Supports mental functions and reduces cell aging. Helps in recovery after certain pathologies. It is also recommended for older animals.

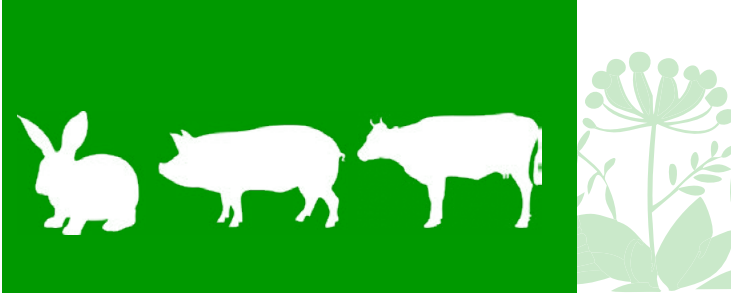

HERBA-TOP® PROTECT powder

- satchet x 100 g, can x 400 g, 10 kg -

It is recommended to be used on horses, large and small ruminants, swine, dogs, poultry and pigeons. It has coccidiostat, antiprotozoal, antiseptic, antiinflammatory, antispasmodic, hepatoprotective, choleric and astringent properties. It is recommended as an adjuvant in the prevention and treatment of coccidiosis and for the prevention of the other protozoa. It can be associated with other antiprotozoal medication, improving their effects.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

HERBA-PRIM[®]

NO WAITING TIME

HERBA-PRIM[®] SUSPENSION

antidiarrheal - bottle x 150 ml 1 L -

It has tonic properties, protects the intestinal mucus, decreasing the absorption of the enterotoxines.

It is recommended as an adjuvant in primary or secondary diseases of the digestive apparatus.

It is recommended to be used on dogs, large and small ruminants and swines.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

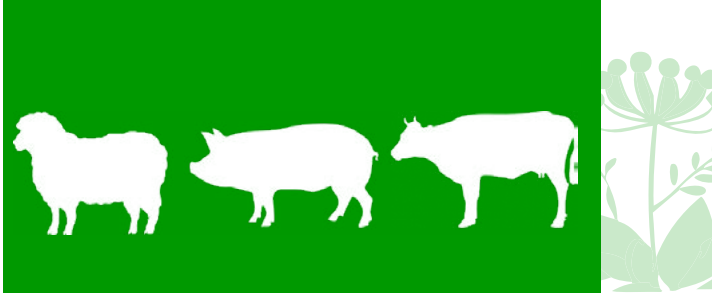

HERBA-PRIM[®] POWDER

-- satchet x 250 g, bucket x 750 g,
sacks x 10 kg -

It has tonic properties, protects the intestinal mucus, decreasing the absorption of the enterotoxins.

It is recommended as an adjuvant in primary or secondary diarrheal affections of the digestive apparatus. It is recommended to be used on large and small ruminants and swines.

RUMDIGESTIN®

NO WAITING TIME

RUMDIGESTIN® HERBA

helps the rumination, indigestions,
restarts the motility of the digestive tube

- bottle x 200 ml, 1L -

It is for swine and large and small ruminants. It has stomachic, digestive, proprieties. Increases digestive system motility, secretion of digestive juices and bile, thus recommended for indigestion through overload, dyspepsia, loss of appetite and the normalisation of the digestive microflora.

NATURAL COMPLEMENTARY FEEDS, CONTAINING AN EXTRACT OF MEDICINAL PLANTS

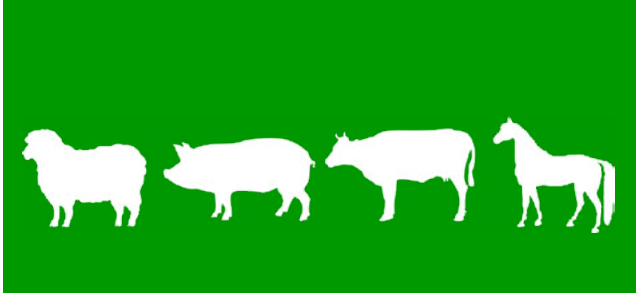

RUMDIGESTIN® HERBA PLUS

helps the rumination,
acetonemia, clinical ketosis

- bottle x 200 ml, 1L -

It is recommended for use on large and small ruminants as adjuvant in acetonemia, clinical and subclinical ketosis, digestive overload, dyspepsia, anorexia, and to normalize the digestive microflora. It increases the appetite and digestive properties, increases the motility of the digestive system and the digestive juices and bile. Because it contains propylene glycol and glycerol it is a source of energy.

CARE PRODUCTS

for animals

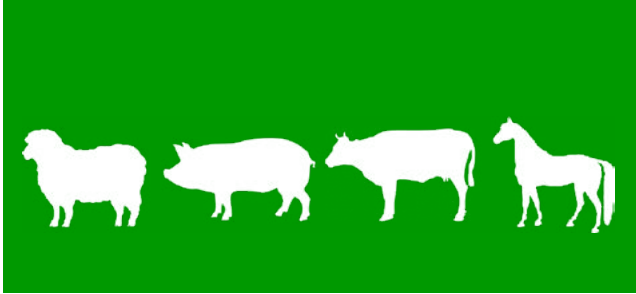

CONTAINING AN EXTRACT OF MEDICINAL PLANTS

HERBA-SEPT® healing ointment – tube x 150 g; can x100 g, 400 g, 800 g; bucket x 3, kg -

It is recommended for use in all species, as an adjuvant in wounds, skin infections, superficial dermatoses, burns, in the treatment of foot diseases, panaritis, pododermatitis, umbilical infections and udder infections.

HERBA-TOP® antifungal ointment – tube x 150 g; can x100 g, 400 g, 800 g; bucket x 3, kg -

It is recommended for use in all species. It is used for the treatment of dermatomycoses produced by different species of fungi, especially *Trichophyton* spp. and *Microsporum* spp. It is applied in a thin layer, continuously, on the affected areas 2-3 times / day for 3-5 days.

CARE PRODUCTS

for animals

METHYLENE BLUE – bottle x 100 ml, 1 L-

External use, as adjuvant for the treatment of damaged tissue (in wounds, ulcers, burns, stomatitis, pharyngitis). Internal use, activates oxido-reduction processes, indicated as an adjuvant in treatment of infections, hypoxia, methemoglobinemia, intoxications (with nitrates, nitrites, sulfonamides, cyanides).

TINCTURE OF IODINE – bottle x 100 ml, 1 L-

It is indicated for all animal species, as an adjuvant in infections; in the form of bruising or brushing around wounds, ulcers, fistulas, around painful joints, atonic wounds.

HERBA-SOL cicatrizing spray – bottle x 150 ml -

It is recommended for use only on pets, as an adjuvant on wounds, skin infections, superficial dermatosis, burns, treating podal affections, panaritium, laminitis, umbilical infections.

HERBA-SOL PROPOLIS cicatrizing spray – bottle x 150 ml -

It is recommended to use only for animals not intended for human consumption, in traumatic wounds, skin infections, superficial dermatitis, burns, podal affections, whitlow, pododermatitis, prevention of umbilical infections, in small surgery, castrations.

COMPLEMENTARY FEED

with vitamins and minerals

PRO VIT solution - bottle x 100 ml, 1 L -

Helps strengthen the immune system, protects during stress, improves weight gain and reproductive capacity. It is recommended for use in horses, large and small ruminants, swine, dogs, rabbits, poultry, pigeons.

PRO VIT AD3E solution - bottle x 100 ml, 1 L -

Solution for the control and treatment of vitamin deficiencies, rickets and osteomalacia as well as in the improvement of deficient feed ratios. Pro-vit AD3E acts as a biostimulator, increasing the body's resistance to pathogenic microorganisms and reducing transport stress. Vitamin A prevents infections, increases the body's resistance, stimulates growth. Vitamin D3 is indispensable for the development of the skeleton and in the formation of the eggshell, it intervenes in the regulation of the calcium-phosphorus balance and in the carbohydrate metabolism. Vitamin E prevents the oxidation of lipids in the body and fats in food. Stimulates egg laying and increases fertility and prolificacy. It is recommended for use in horses, large and small ruminants, swine, dogs, rabbits, poultry, pigeons.

PRO VIT CA+MG solution - bottle x 100 ml, 1 L -

PRO VIT C PLUS solution - bottle x 100 ml, 1 L -

PRO VIT AMINO solution - bottle x 100 ml, 1 L -

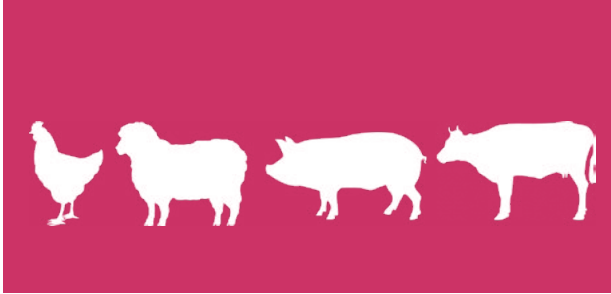

Solution for the control and treatment of vitamin deficiencies, rickets and osteomalacia as well as in the improvement of deficient feed ratios. Helps to strengthen the immune system, protects during times of stress, improves weight gain and reproductive capability. It increases the body's resistance to infections and has an important anti-stress effect. Promotes the formation of collagen, cartilage, dentin and ossein, accelerates the healing process of wounds. Stimulates hematopoiesis, absorption of iron from the intestine and it has antitoxic, anti-infective and tonic effects. It is recommended for use in horses, large and small ruminants, swine, rabbits, poultry, pigeons. pui

PRO VIT POWDER - sachet x 5 g -

It inoculates the intestines of day-old chicks, ensuring an ideal start, and prevents dehydration by regulating intestinal osmosis. The probiotic embedded in Pro-Vit eliminates unwanted bacteria, and the chickens develop a balanced and functional flora. Betaine prevents dehydration by retaining water in the cells of the intestinal wall. Pro-Vit increases conversion rate and average gain, lowers mortality.

VITA-PLUS exotic birds - bottle x 30 ml

As adjuvant in deficiency states, apathy, anorexia, in convalescence, stress. Strengthens the resistance of the organism. For the prevention of infectious and parasitic diseases.

COMPLEMENTARY FEED

with vitamins and minerals

CALCIUM FEED - min. 98% Ca CO₃ - bucket x 6 kg -

**AROMATIC CALCIUM FEED with vanilla flavour or forest fruits
- min. 98% Ca CO₃ - bucket x 6 kg -**

CALCIUM FEED with vitamins - min. 98% Ca CO₃ - bucket x 6 kg -

For livestock - mixed in concentrated feed.

- poultry: - ducks 1.5%, 1.9% chicken, hens 9.5% - piglets 1%, sows 2% - lambs, kids 2.2%, sheep, goats 2.7% - 2.7% calves, 2.5% cows

EGG LAYING ENHANCER with OREGANO - sachet x 1 kg, bucket x 6 kg -

Recommended for birds during the laying period.

The product is administered mixed with feed as follows: 1 kg to 10 kg of feed.

It prevents the phenomenon of cannibalism, the appearance of soft eggs, rickets.

It can be used daily.

GRANULATED FEED CALCIUM granulation 2-3 mm - bucket x 8 kg -

For animal husbandry To be administered orally. It is placed at discretion in several places, in the birds' habitat, they will consume as much as they need and especially when they feel a deficiency.

Supports physiological digestion, reduces the number of bacteria in the digestive system, improves egg quality, reduces chick mortality.

NATURAL PLANT insecticides

NATURAL PLANT EXTRACT ONLY

Ready for use, natural product recommended as adjuvant in the treatment of infestations with fleas and mites on every species. Contains fat-soluble essential oils (linalool, thujon, thimol, naftaquinone, azulene, geraniol, natural pyrethroids) with insecticide and repellent properties. The product affects the nervous system of the insects, taking its effect gradually. Due to the fact that it contains a complex mixture of insecticidal substances, insects do not develop a resistance to the product. The product is not toxic for mammals and birds.

ECTOCID® NATURAL Powder for dogs, cats and exotic birds - 50g bottle -

ECTOCID® NATURAL Spray for dogs, cats and exotic birds - 100 ml, 500 ml bottle -

ECTOCID® NATURAL Spot-on for dogs and cats

Solution for external use on skin, adjuvant in fighting against external parasites (fleas, lice, ticks, scabies) and insects that cause discomfort (flies, mosquitoes, ants, cockroaches, bedbugs, wasps, etc.). - 30 ml bottle -

ANTI-PARASITIC

natural

ECTOCID® HERBA powder for dogs, cats and exotic birds - bottle x 10 g, 50 g -

It is a natural product recommended for treating flea and lice infestation of dogs, cats, and caged birds.

ECTOCID® shampoo for dogs, cats - bottle x 200 ml -

Natural product, recommended in treating of infestations with fleas and lice of dogs, cats.

ECTOCID® HERBA spray for dogs, cats and exotic birds - bottle x 100 ml -

Natural product, recommended in treating of infestations with fleas and lice of dogs, cats, and birds.

ECTOCID® HERBA spray for horses, pigeons - bottle x 500 ml -

Natural product, recommended for treating infestations of fleas, flies, mosquitoes, lice, on horses and pigeons.

OTO-SAN HERBA ear drops for dogs, cats and bunnies - bottle x 30 ml -

It is recommended as adjuvant in the treatment of external otitis with bacterial and parasitic etiology.

INSECTICIDES

for the general public
and professional use

ECTOCID® P INSECTICIDAL POWDER

- box x 50 g -

Contains 0,5 X, 0,5% permethrin,
0,5% PBO, prallethrin 0,1%.

Broad spectrum residual insecticide for public
health insect control.

For flying insects at rest and crawling insects.

Apply at monthly intervals to resting and
breeding sites.

ECTOCID® P INSECTICIDAL SPRAY

- bottle x 150 ml, 500 ml -

Contains 0,4 cypermethrin, 0,2% permethrin,
0,5% PBO, prallethrin 0,01%.

Broad spectrum residual insecticide for public
health insect control.

For flying insects at rest and crawling insects.

Apply at monthly intervals to resting and
breeding sites.

Use biocides safely! Always read the label and product information before use!

INSECTICIDES

for the general public
and professional use

ECTOCID® P RED MITE POWDER

siccative powder against red mites

- powdering bottles x 20 g, buckets x 140 g, 700 g, sacks x 5 kg -

Contains 5% silicon dioxide, 0,1% prallethrin, ready for use powder, with broad spectrum of insecticidal activity. It is used against red mites of poultry and fighting other crawling insects (coackroaches, ants, flea etc.) and flying insects (flies, wasps, etc.) It is recommended for the desinsection of buildings, public vehicles, industrial buildings, warehouses and shelters, spaces for animal husbandry.

ECTOCID® P PERMET EC insecticide

- bottle x 20 ml, 100 ml, 1 L, 5 L -

Contains 6% permethrin, 5 % PBO, 0,1% prallethrin with a broad spectrum insecticidal effect. For use against flying and crawling insects such as houseflies, clusterflies, fruitflies, mosquitoes, wasps, moths, fleas, bedbugs, ants, cockroaches and stored product insects including saw-toothed grain beetle and adult grain weevils. For use in domestic situations, public hygiene areas including hospitals (not occupied wards), industrial and municipal buildings and food handling/storage/manufacturing premises. May also be used in zoos, petshops, kennels, veterinary practices and laboratory animal houses (excluding animal pens and cages).

Use biocides safely! Always read the label and product information before use!

INSECTICIDES

for the general public and professional use

DELTASECT WP

insecticide against crawling insects

- pachet x 10 g -

Active substance: Deltamethrin 2,538 %

Places of use: Crawling insects: indoor application in cracks and crevices is recommended. The product solution should be applied in cracks and crevices, corners, behind and under furniture and other small places where insects usually hide. The product is suitable for treating pests in houses and apartments. Instructions for use: DELTASECT WP is applied by spraying on surfaces with portable low-pressure pumps (hand and backpack sprayers), taking care to apply the solution in cracks and crevices, under or behind furniture and generally in all places where insects can hide. Dilute at a rate of 1:100 in water. The solutions obtained must be sprayed at a rate of 100 ml of solution in use per 2 m² (use 1 g of the product and dilute with 100 ml of water). The effect is expected 4 hours after exposure of cockroaches to treated surfaces. The diluted insecticide must never be stored: a fresh dilution must be prepared if necessary. Application must be made in a 0,1 m wide band on treated surfaces. A maximum of 2 treatments/year should be given with a minimum interval of 8 weeks between applications. During administration care should be taken that the product is constantly agitated to avoid precipitation.

SOJET

water dispersible powder for the control of flies

- pachet x 10 g, box x 500 g -

Sojet is an insecticide for professional use for the control of flies (Muscae). Sojet is a WP formula (water dispersible powder) suitable for the control of adult flies in industrial areas, households, private areas and in stables. Do not apply the insecticide directly to surfaces.

Use biocides safely! Always read the label and product information before use!xxxx

www.promedivet.com

INSECTICIDES

for the general public
and professional use

PROTECTOR NATURAL AEROSOL space insecticide spray TOTAL RELEASE - spray x 150 ml -

Application:

For control of insects such as flies, mosquitoes, ants, cockroaches, wasps, earwigs, silverfish, fleas, bedbugs, moths, book lice and mites by applying them on hard porous and non-porous surfaces, hard and soft furniture including linens of bed.

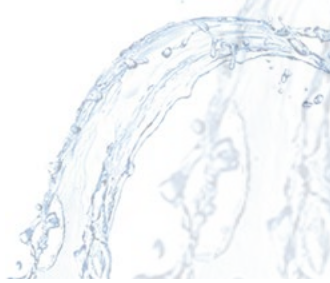

For domestic use, use indoors (including kitchens) and outdoors in yards and wasp nests.

For professional use, use in domestic and commercial situations including kitchens, hospitals (not occupied lounges), hotels, restaurants, public buildings and on board ships.

For outdoor use in yards, recreation areas, transit stations, trash cans and wasp nests.

Can be used in aircraft storage areas for pre-flight treatment.

For use in and around farm buildings, stables, pig pens, milking parlors, bird cages against red lice and beetles. Do not use on cereals or in grain stores.

DISINFECTANTS

the general public
and professional use

PROCID
surface disinfectant
- bottle x 100 ml, 1 L, 5 L -

PROCID
detergent and surface disinfectant
- bottle x 100 ml, 1 L, 5 L -

Field and area of use:

Disinfectants for surfaces from private areas and public health areas (exceptions of hospitals).
Disinfection of hard surfaces from food industry and surfaces of production, transportation,
storing and food and beverage consumption for humans.

PRO CLEAN FORTE

liquid hand disinfectant

- bottle x 100 ml, 1 L, 5 L -

Use:

Disinfectant that can be used for hand hygiene without using soap, for a skin that is not obviously dirty. It dries quickly, leaves your skin clean and velvety, degreases without drying the skin. Apply a quantity of 3 ml in the palm of the hand and rub your hands well to cover the entire surface of the skin, including between the fingers. Action time 60 sec. The operation can be repeated several times a day. Avoid contact with mucous membranes. Do not apply to the face or open wounds.
