Ivalua CLM

Speed & efficiency through collaboration

Enterprise-wide CLM capabilities

Our Vision: Efficient, Compliant & Intelligent Processes across the Full Contract Lifecycle.

Your Contracts, Searchable and Secure
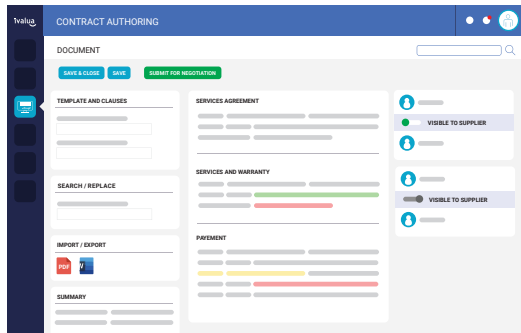

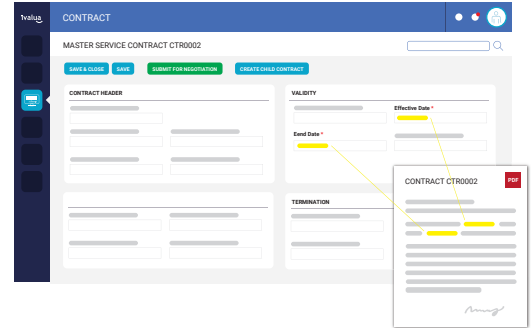

✓ **Powerful Search**
Search and filter across all your active or legacy contracts to find any data or documents.

✓ **Capture Relevant Data**
Analyze and convert a scanned/PDF document into a full text version (MS Word) automatically extracting key metadata and segmenting clauses using OCR and AI.

✓ **Complete Visibility**
Access all contract information, including key contacts, negotiated terms, documents, amendments, risk and performance assessments, price lists and more.

Efficient Contract Initiation, Creation and Authoring

✓ **Guided Contract Requests**
Simplify the contract request process while adhering to compliance.With IVA, access your contract templates instantly.

✓ **Rapid Contract Creation and Processing**
Use pre-approved templates and the clause library to build legally compliant contracts with faster cycle times. Thoroughly review third-party paper contracts using OCR meta-data extraction and comparison.

✓ **Collaboration and Automation**
Access all contract information including key contacts, negotiated terms, internal and external conversational collaboration with automated workflows and more.

Let Your Contracts be Your Guide

✓ **Analytics: Advise and Manage**
Our contract analytics dashboard provides key insights, alerts, workflow actions, and performance metrics.

✓ **Dashboard Driven Actions**
Equip users with the capabilities to create and manage their own dashboard to support day-to-day contract management activities.

✓ **Reminders and Notifications**
Real-time notifications for optimal user responsiveness to milestones and tasks.
