# We focus on the comprehensive support of all company processes

# Ivalua Portfolio

Our Expertise

With Ivalua, valantic offers an **end-to-end eProcurement environment** for all industries

- ✓ **Software development**
- ✓ **Private Cloud Hosting**
- ✓ **Quality control**
- ✓ **Ensuring availability**
- ✓ **Technical Innovation driver**

- ✓ **Process consulting**
- ✓ **Best practice for your industry**
- ✓ **Project management**
- ✓ **Implementation**
- ✓ **Roll-out and trainings**
- ✓ **Change management**
- ✓ **Hypercare**

### Ivalua offers a Single Unified Platform for All Spend and All Suppliers:

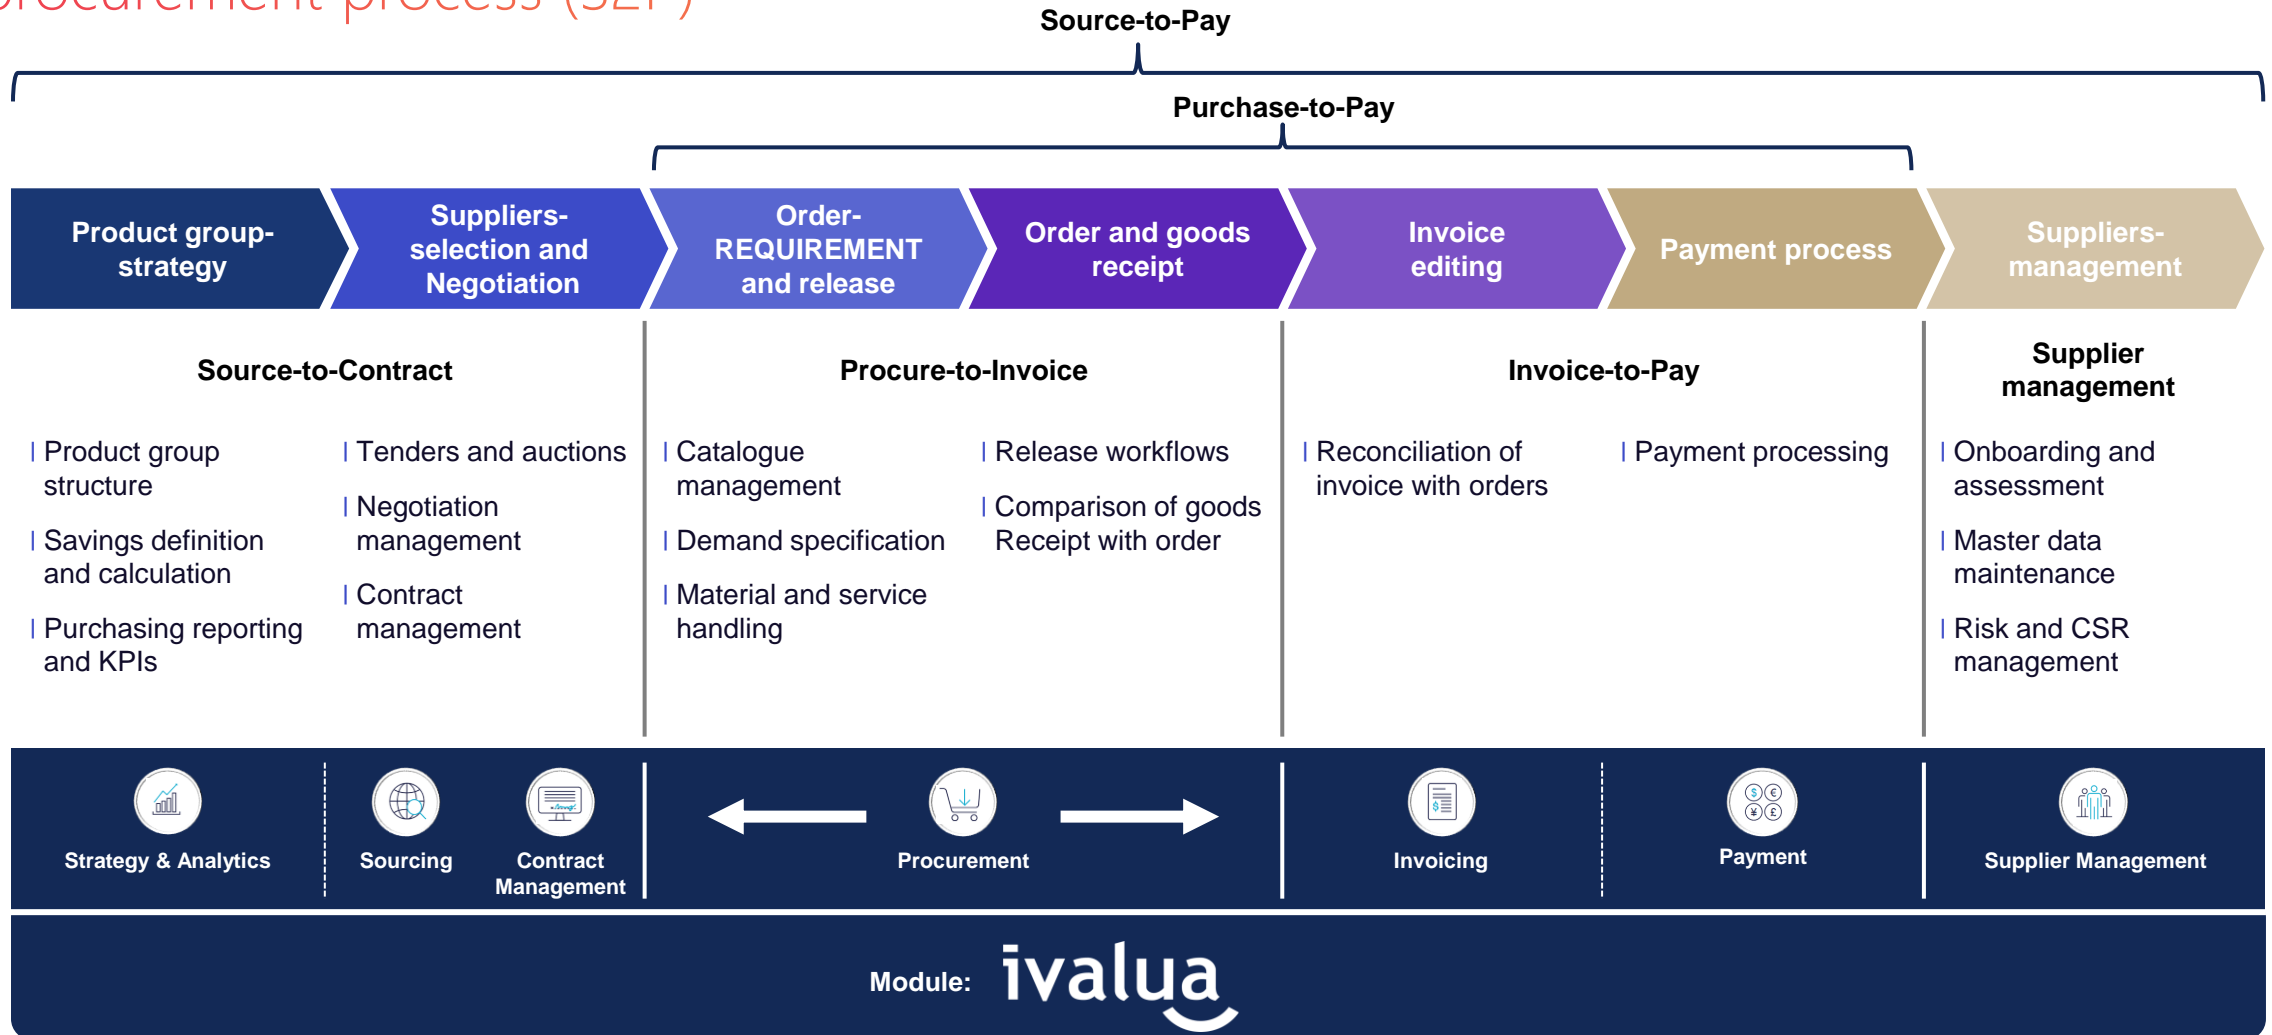

### A Unified S2P Platform that SIMPLIFIES Procurement

### The market-leading approach to unlock the promised value of GENERATIVE AI

- Simple: Embedded in S2P where users work, with pre-built use cases
- Smart: Intelligent orchestration optimally processes requests and responses using both the internet and internal data/docs
- Adaptable: Unique approach lets you build your own use cases without any coding
- Secure: Highest data privacy standards. Data is never stored outside Ivalua, used to train 3rd party LLMs or shared across customers

We support you in your transformation towards a **complete digitalization of the procurement process (S2P)**

Specifically, four service packages are addressed to provide support within the framework of the Ivalua transformation

### Hypercare and Support

#### „Getting the system up and running “

- Supervision & coordination of support service and bug fixing
  - Collection of requirements and support for FAQs
  - Development of alternative solutions based on the requirements
  - Coordination of bug fixing with Ivalua
  - Bug fixing of minor bugs after consultation
- Hotline for users & employees

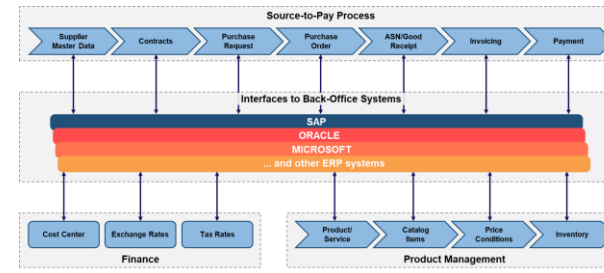

### Transformation Consulting

#### „From Vision to Procurement Excellence “

- Our procurement practice is designed to bridge the gap between strategy and implementation.
- The focus is on developing robust procurement processes, streamlining processes and leveraging advanced technologies.
- This capability sets us apart from other consulting firms that focus solely on IT implementation.

### Ivalua Implementation

#### „Digitalization on Demand “

- Implementation of necessary and supplementary modules and 3rd party software
- Advice on specific issues incl. feasibility assessment
- Integration into the ERP system and execution of UAT/Testing

### Mentoring and Training

#### „Train (Key) Users“

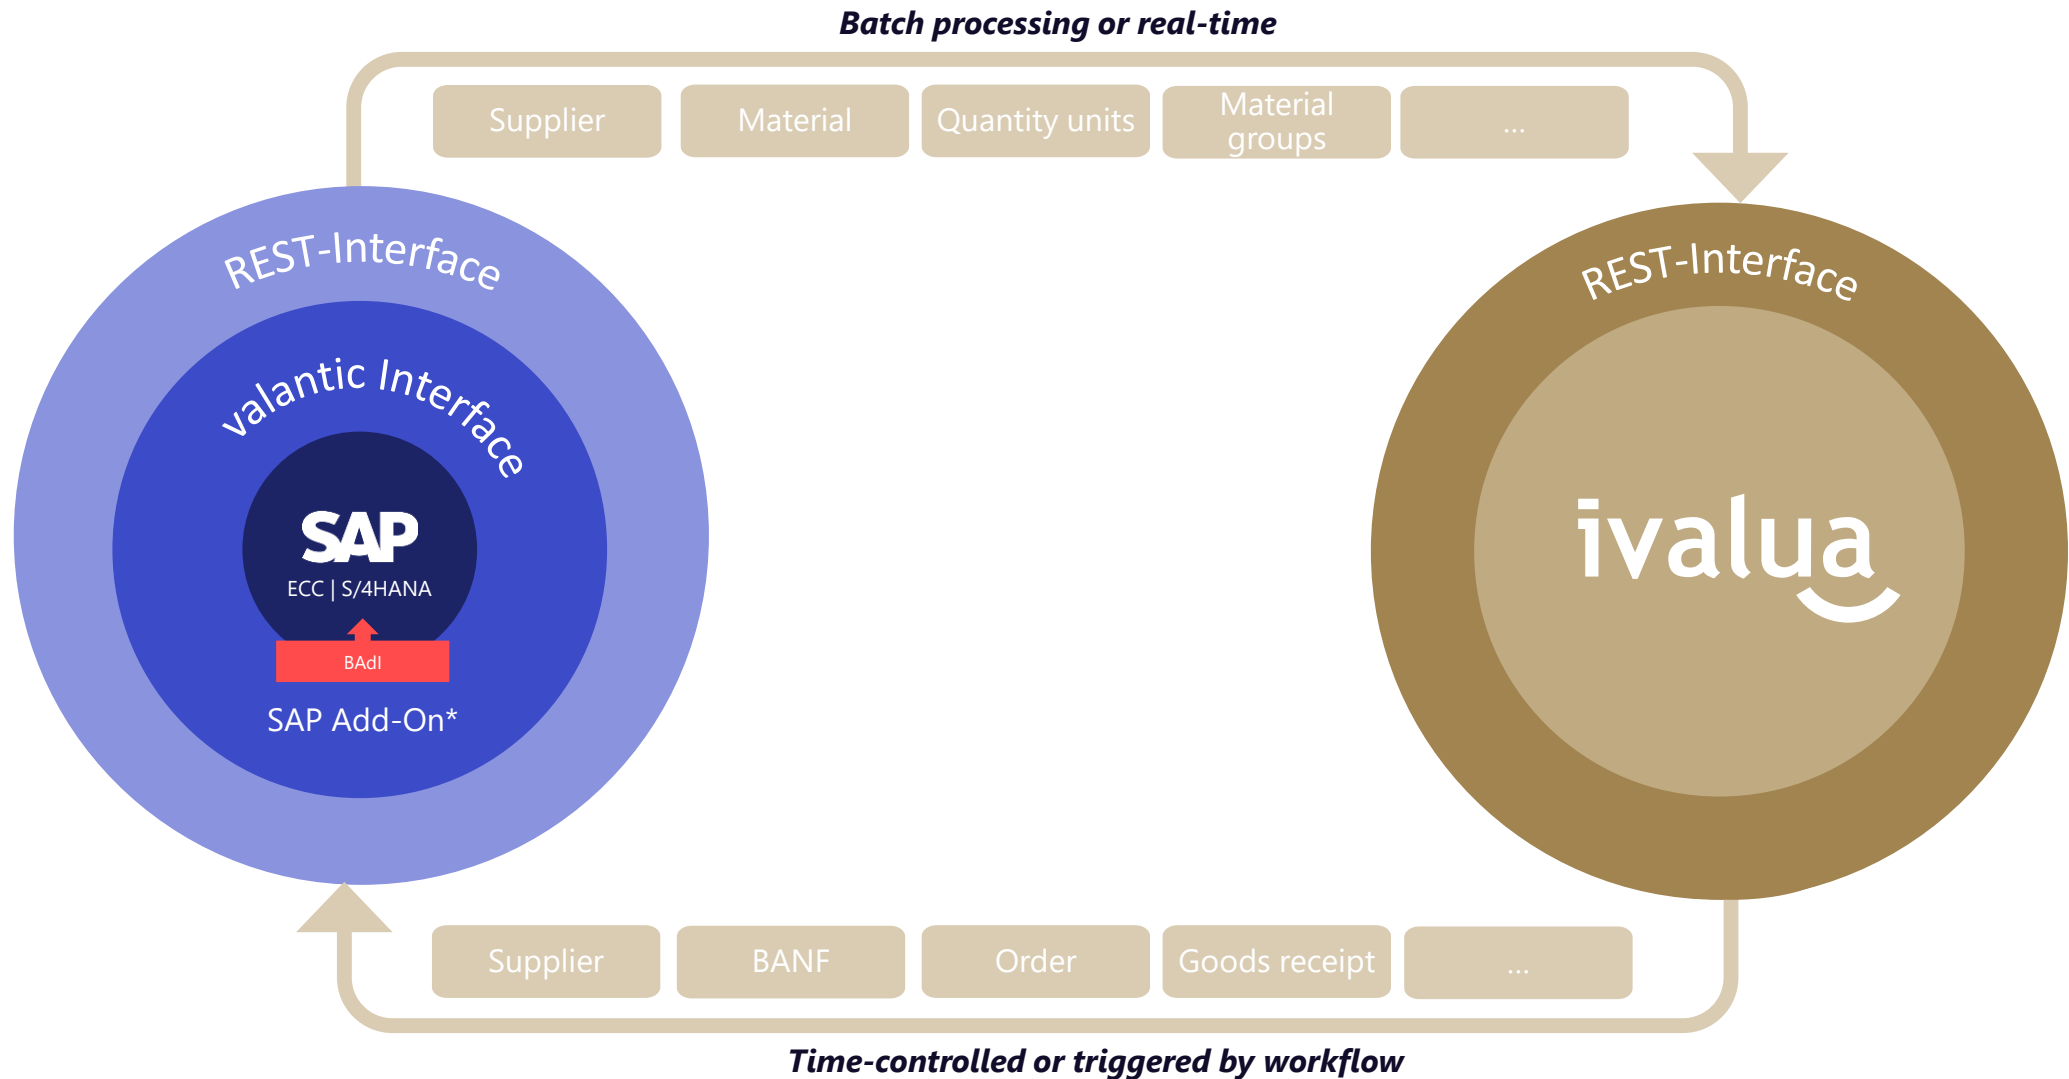

- Mentoring & coaching management and key users
- Accompaniment during certification from L1 to L3
- (Short) training for other employees
  - Preparation of training materials
  - User training by valantic and/or key users

# Bi-directional Integration of SAP and Ivalua

Technical Overview

# System Context

# Certified SAP Integration with valantic

## CERTIFIED

SAP-certified standard add-on with its own namespace. Continuous maintenance and adaptation of the standard with recertification as required.

## STANDARDIZED

XML- or JSON-based communication via OData REST API

## ADAPTABILITY

Data filtering possible via customizing

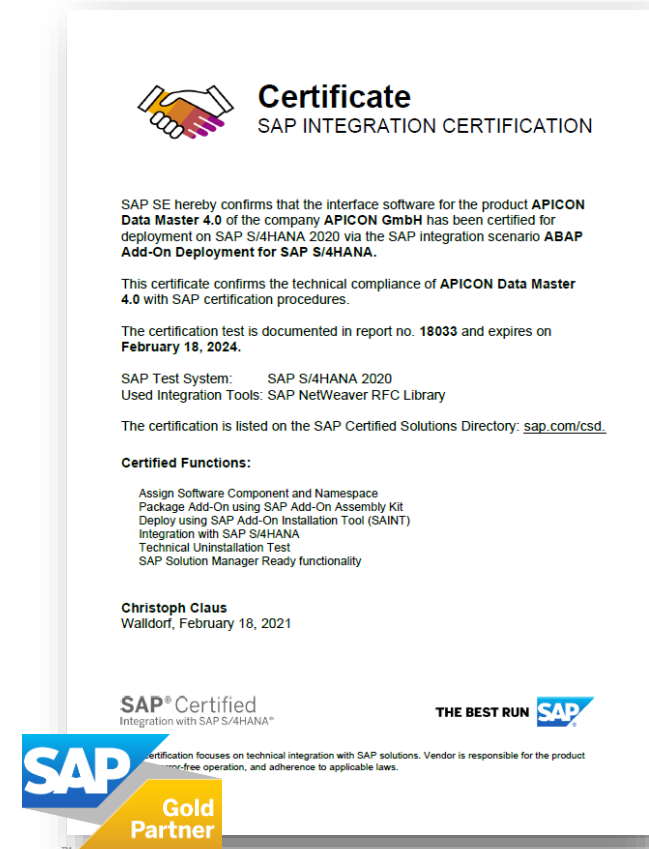

## EXPANDABILITY

Individual customization according to your needs: Simple expansion of the interface with customer-specific "user exits" by valantic consultants

## SUSTAINABLE

Be optimally prepared for future requirements with a modern development approach based on the latest SAP technologies.
