

Simplify Third-Party Relationships

The comprehensive third-party governance, risk and compliance management platform (TPGRC), enabling organizations to significantly reduce their risk exposure, preserve their reputation, and ensure their resilience.

Customized Processes

Maximize your processes with customizable alert and validation rules, while adapting workflows with smooth and efficient daily tasks.

Real-time Alerts

Monitor and control evaluation in real-time and visualize your suppliers' progress. Using dashboards, identify areas for improvement and take corresponding actions.

Powerful Integrations

Benefit from complete integration with market-leading solutions by centralizing third-party risk management on a single platform. You enhance your employees' experience and make their daily work easier.

Dynamic and Innovative Dashboards

Monitor supplier file statuses and associated actions in real time through innovative dashboards.

Identify the Maturity Level

Identify improvement areas and track the progress of your suppliers with assessments which power by maturity indicators.

End-to-end Assessment Management

Activate processes and workflows and handle everything, from evaluation to offboarding. We aggregate and identify risk levels and engagement of your third parties.
