Sustainability Solutions

Supply Chain Due Diligence

Ensure compliance with global regulations through automated due diligence processes. Solutions include CSDDD, LkSG, NTA, VSoTR, EU Forced Labor, and more.

Sustainability Reporting

Streamline sustainability reporting to meet global frameworks and reporting directives. Solutions include CSRD, GRI reporting, and more.

Carbon Emissions

Measure and reduce emissions across your supply chain and ensure compliance. Solutions include CBAM, Supply Chain Decarbonization, and more.

Deforestation & Biodiversity

Ensure your supply chain is compliant with biodiversity and deforestation regulations such as the EUDR, protecting your business and the planet's resources.

Supply Chain Visibility

Achieve comprehensive visibility across your entire supply chain, ensuring compliance, risk management, and sustainable sourcing.

Product & Material Compliance

Meet product and material compliance standards covering hazardous materials and ethical sourcing. Solutions include REACH, ROHS, PFAS, PBT5, Conflict Minerals, and more.

Why IntegrityNext?

Scaled to Your Needs

The most streamlined and unified cloud platform offering multiple solutions that grow with your business, adaptable to any need or stage of your journey.

Global Supplier Network

Join the largest supply chain sustainability network with over 2 million suppliers across 190 countries and all industries—free for suppliers, ensuring broad reach and engagement.

AI-Powered Insights

Harness AI across every solution for smarter decisionmaking and automation at every level of your compliance and sustainability workflows.

Built-in ESG Expertise

With over 40 topics embedded in the platform, our deep sustainability expertise guides your efforts, keeps you ahead of regulations, and frees up your resources.

360° Service & Support

Benefit from in-house sustainability experts, hands-on program management, and dedicated supplier onboarding, validation, and support.

Easy Integration

Access a robust ecosystem of partnerships and integrations to extend the value of your initiatives and bring data where it's needed.

Trusted by Industry Leaders

About IntegrityNext

IntegrityNext is a leading provider of supply chain sustainability solutions, designed to help businesses ensure compliance, drive impact, and maximize value with efficiency. Our scalable and unified cloud platform is built to evolve with customer needs, helping address complex supply chain challenges such as due diligence obligations, decarbonization, deforestation, multi-tier transparency, sustainability reporting, and more, through powerful AI, smart automation, and in-house sustainability expertise. With the largest and fastest-growing global sustainability network encompassing over 2 million suppliers across 190 countries, our vision is to empower businesses to drive positive environmental and social impact throughout their supply chains.
