ARNIA

ITALIAN SUSTAINABLE LUXURY

MORE THAN JUST A FABRICS PRODUCER

ARNIA
ITALIAN SUSTAINABLE LUXURY

WHAT DO YOU THINK WE DO?

INCLUSION & EXCELLENCE MADE IN ITALY

ARNIA TEXTILE FASHION

Who We Are: A non-profit social cooperative that combines Italian Craftsmanship and Social Inclusion in a project of Luxury and Excellence.

Our Team: Individuals from diverse life paths, without specialized training, find stable employment in a serious and creative environment.

What We Do: Production of Luxury "Made in Italy" fabrics, targeted selection of materials from excellent local partners, and quality control throughout all phases from creation to production.

Our Approach: "On-time" quality control throughout the entire production cycle, reducing defects and returns thanks to fresh and unconventional perspectives.

Our Goal: To value unique talents, promoting inclusivity and strengthening the connection between Art, Fashion, and Social Responsibility.

DEFENSE OF BRAND REPUTATION

In addition to being pioneers in enhancing Contemporary and Sustainable Textiles, **we extend their lifecycle by transforming them into construction materials.**

We stand out for our commitment to **measuring ESG impact**, ensuring SMART LUXURY / Sustainable Luxury that protects our clients' brand reputation **with transparency and accountability.**

THIS IS A BRICK

ARNIA TEXTILE FASHION aims to revolutionize textile waste management through an innovative transformation process. Our efforts focus on "straggia," a non-recyclable textile residue from weaving, traditionally destined for incineration due to its complexity and inseparability.

Starting in 2025, new European regulations will impose strict restrictions on the incineration of textile waste, establishing the Producer's Responsibility to find sustainable alternatives.

Innovation: The first in Italy to transform complex textile waste into eco-sustainable construction materials.

Sustainability: A direct response to new EU regulations on extended producer responsibility and compliance with Green Public Procurement (GPP) criteria for construction.

Scientific Support: Collaboration with the Politecnico di Milano, grounded in existing research studies.

SUCCESS STORIES BASED ON: SHARED OWNERSHIP, SUSTAINABILITY, REINVESTING IN THE COMMUNITY

A MODEL THAT IS NOT ONLY ETHICAL BUT ALSO COMPETITIVE.

Mondragon (SPAIN)

Industrial production - sales over 80,000 workers.

Cooperative Group (UK)

Large-scale retail, energy - over 4.5 million members.

Ocean Spray (USA)

Food Industry - over 700 blueberry and grapefruit growers

Sunkist Growers (USA)

Agriculture (citrus) - thousands of citrus growers in America.

BUSINESS MODEL: INDEPENDENCE & PERFORMANCE BUT WITH A PURPOSE

We proudly operate sustainably and effectively without dependence on public funding, thanks to an innovative model that integrates Sustainability, Inclusion and Innovation.
