

S&P Global S1 & Market Intelligence Sustainability & Climate Analytics

S&P Global Sustainable1 matches customers with the sustainability products, insights and solutions from across S&P Global's divisions to help meet their unique needs. Our comprehensive coverage across global markets combined with in-depth sustainability intelligence provides financial institutions, corporations and governments with expansive insight on business risk, opportunity, and impact as we work towards a sustainable future. Learn more about the offerings from our Market Intelligence division below.

At a Glance: Benefits of Our Approach

Established: Financial Institutions, Corporations, Governments and Universities have been applying our specialized models, data and analytics since 2000.

Comprehensive: We assess exposure across every link of the global investment chain, from investment portfolios and loan books to companies and their raw material dependency.

Rigorous: We use science-based data to provide the right foundation to inform confident financial decision-making and robust stakeholder reporting.

Our Solutions for Corporations

We help diverse companies – large and small, with broad ranging business activities – to assess sustainability performance across global operations, assets, supply chains, products and technologies, in a way that is meaningful to business managers and investors.

Analytics & Tools: We combine science-based data, economic models and financial analysis to deliver business focused sustainability insights.

- Sustainability Disclosure Reports
- Carbon & Water Footprint Reports
- Climate and TCFD Scenario Planning, including carbon pricing and water pricing risk
- Total Value Assessments (Environmental and Social)
- Green Transition Analytics
- Sustainable Development Goal (SDG) Evaluations
- Net Benefit Assessments

Data Feeds: To help companies embed sustainability considerations in performance dashboards, ratings and rankings, and supply chain management, our data is available direct into technology platforms and management systems.

Spotlight: The Trucost SDG Evaluation Tool tracks business alignment to the United Nations 2030 Sustainable Development Goals. The SDG Evaluation metric ranges from 0-100 and represents the balance between a company's positive impact and risk exposure associated with the SDGs.

Our Solutions for Financial Institutions

We have helped financial institutions across the world with over USD 27 trillion in assets to manage environmental risk exposure across asset classes, including equities (public and private), corporate and sovereign bonds, real assets, and bank loan books.

Analytics: Since publishing the first carbon audit of an equity portfolio in 2005, we have been a pioneer of portfolio environmental analytics. Today, our uniquely comprehensive analytics cover key sustainability areas and use cases.

- Portfolio Footprinting
- TCFD Scenario Analysis
- Screening
- Engagement
- Product Creation
- Impact Assessment
- Stranded Assets
- 2 Degree Alignment
