6 Urban Campuses

BERLIN

The Berlin campus is situated in the western part of the city centre, near the Charlottenburg Palace and its splendid gardens. Berlin is a fast-growing city characterised by a rich multifaceted economic structure and culture.

LONDON

Located in West Hampstead in North-West London, this campus offers students state-of-the-art facilities in a traditional Victorian building.

MADRID

The Madrid Campus is located in the exclusive neighborhood of Puerta de Hierro, 10 minutes away from the city centre. Madrid is one of the most visited cities in Europe, with an exceptional lifestyle, an incredible gastronomy and thousands of places to visit. Most importantly, Madrid is one of the leading business and innovation hubs in Europe.

PARIS

République & Montparnasse

The Paris sites are conveniently located in the centre of the city. They enjoy easy access to all of the capital's major business districts.

TURIN

The Turin campus is located in a beautiful building with modern facilities. Turin is one of the main business centres of the Italian economy and home to many architectural masterpieces.

WARSAW

Our campus is based at Kozminski University, located in Warsaw's northeast district of Praga Północ. It is one of the city's most historic neighbourhoods.

ESCP

It all starts here

In a world shaped by the economy, reorienting how this world evolves has become a duty of the sphere of business.

It's by giving meaning to business that we will be able to nurture society in a positive and sustainable way. As a business school training leaders and entrepreneurs for more than 200 years, our role is central in teaching how to better anticipate change, and make decisions.

Because, in life as in business, everything starts with choices.

It is by making such choices that ESCP Business School upholds its values, its unique management style and its unique point of view on the world.

The era of responsible, augmented and collaborative leadership has arrived: a leadership aware of global issues, sustained by our values rooted in European humanism, our unrivalled worldwide diversity and multiculturalism.

Joining the international ESCP community is beyond embracing academic excellence; it is about learning how to make enlightened choices to be ready to meet the great challenges of our times with optimism.

Yes, with optimism because, like ESCP's founding fathers in 1819, we believe in progress.

We constantly explore new knowledge territories from sciences to humanities, allowing our graduates to reach a new level of insight and to engage with intelligence and responsibility.

For a successful career with a positive footprint, choose ESCP Business School. **It all starts here.**

Master Programmes

Europe can be described as embracing maximum cultural diversity within minimum geographical distances. With its unique crossborder multi-campus structure, **ESCP Business School** became an expert in cross-cultural management, a skill more than necessary in today's business world.

When you join **ESCP Business School**, you also share its values: diversity, openness to the world, sustainable development and entrepreneurship. Values that you will find within all of our programmes.

Programme Overview

“Become an expert in your field”

Specialised Masters and Masters of Science are intensive career-oriented programmes designed for people who already know which field of study they want to focus on, and who need to acquire specific skills and sector knowledge in order to successfully compete for the best career opportunities.

Our goal is to shape experts able to progress easily and rapidly in an international market. The full-time intensive nature of these programmes provides students with immediate access to managerial positions, after a short but intense period of study.

Our programmes are internationally oriented with seminars or classes that take place abroad, taught by local teachers and professionals.

Studying in one of our programmes means benefitting from the best possible education on our European campuses, with the best students representing a wide variety of backgrounds and nationalities.

All of our programmes reflect the innovative spirit and desire for continuous improvement instilled by ESCP Business School.

“Gain a dual expertise and boost your employability by studying in up to 3 countries.”

Master of Science (MSc) State of Berlin accredited • German Master Degree

180 ECTS minimum required (or equivalent)

- **2-year programmes**, which include classes, an internship & a master thesis

Marketing & Creativity

Classes on the London and Paris Campuses

Objectives

The MSc in Marketing & Creativity is unique in its focus on the interface between creativity and analytical thinking in marketing management. By deploying multiple approaches to marketing, this MSc prepares a new generation of marketers who are responsible, strategic, competent and innovative in their choices.

This specialisation fosters creative and critical thinking skills with a methodological and systematic approach. You will learn about creativity in business, management and performance, develop your cognitive flexibility and agility, and learn how to be strategic and analytical in a data-driven world to provide innovative solutions to complex problems.

Career opportunities

At national and international levels in the areas of Brand Management, Marketing Management, Product Management, Digital Marketing, Account Management, Consultancy, Business Development, Innovation, Strategy, Project Management, E-Commerce, Entrepreneurship, etc.

Curriculum

The specialisation is built on four pillars, incorporating extensive practical experience.

- **Creativity:** Art & Science of Creativity, Creative Thinking, Creative Seminars
- **Marketing:** Introduction to Creativity Marketing, Consumers & Consumer Value, Branding and the Creation of Value, Integrated Marketing Communications, Strategic Marketing Plan, Global Issues in Marketing, Digital Marketing & Social Media
- **Management:** Managing for Social Impact, Finance for Marketers, Breakthrough Strategies
- **Analytics:** Understanding the Marketplace, Statistics for Marketers, Creative Analytics, Research Methods
- **Two specialisation tracks:** Fashion & Luxury, Digital Transformation & Entrepreneurship
- **Integrated practical projects:** L'Oréal Big Picture Project (1 week), Creative Seminars (10-15 different companies), Company Consultancy Project (6-8 weeks), Min 4-month Professional Placement (full-time job / internship)
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

International Business & Diplomacy

Classes on the ESCP Paris Campus & the ENA Paris Campus

Objectives

The aim of the specialisation is to acquire the necessary knowledge and capacities to cope with the logic and rules of economic diplomacy, and to understand the interactions between governments, firms and other non-state actors.

At the end of their studies, participants shall be able to deal with the political and geo-economic challenges regarding the regulation of trade activities and the promotion and development of business internationally.

Career Opportunities

This MSc leads to positions in governmental and international organisations, such as: Account Manager, International Project Manager, Consultant, Negotiator, Strategic Coordinator, Country Risk Analyst, International Project Management Analyst, Trade and Investment Associate, International Trade Compliance Analyst, Global Strategies Coordinator, Economic Policy Analyst, etc.

Graduates can evolve in three different sectors:

- **Business:** in large international consulting firms or companies
- **Non-governmental organisations**
- **Governmental sector**

Curriculum

The MSc combines both theoretical courses and real case studies. The Faculty includes professors from ESCP Business School, ENA and professionals from the sector. They provide students with a solid background in management.

The alliance of two prestigious institutions will bring together talents to boost their careers by offering a unique specialisation combining Business and Diplomacy. The MSc is structured around 6 main pillars:

- **Understanding the international environment of business**
- **Knowing and practicing economic diplomacy**
- **Cooperating between private and public actors**
- **Doing consultancy, lobbying and influence projects**
- **Doing Business Internationally**
- **Working in international organizations**

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Master Thesis

This applied research project is an essential part of the programme as it requires an in-depth analysis of a relevant topic. Students work on their thesis in terms 2, 3 and 4. Their chosen topic should be approved by the thesis supervisor by the end of term 2. The assessment of the Master's professional thesis is based on a written report as well as an defense before a jury panel by the end of December.

During this time, students will also participate in a mandatory Research Seminar held by a ESCP professor. This seminar represents 3 ECTS credits of the total of 90 earned over this academic year.

Professional Mission

From April to December, students must complete an in-company internship of 4 months.

The internship is an opportunity for practical application of the theoretical concepts learned from courses, with an eye to establishing a career.

Digital Project Management & Consulting

Classes on the Madrid and Berlin campuses

Objectives

The MSc in Digital Project Management & Consulting equips students with the necessary tools to come to grips with the unprecedented challenges that characterise the contemporary workplace. Our teaching philosophy, "learning by doing", combines a management curriculum and an international seminar with real business cases, live case studies and the Digital Consulting Project (DCP). This combination enhances students' development experience through a hands-on approach with our partner companies.

Career opportunities

At national or international levels: Business Analyst, Project Manager, Digital Transformation Analyst, Business Consultant, Strategy Consultant, Business Development Manager, Digital Project Manager.

Curriculum

A combination of core courses, case studies, workshops and a Digital Consulting Project:

- Project Management in Practice
- Coordinating with Technology in Emergencies
- Consulting Methods
- Digital Business Transformation
- Agile Project Management
- Digital & Strategic Portfolio Management
- Robots and AI in Business
- Creative & Design Thinking
- **2 tracks to choose from:** Project Management Track, Business Consulting Track
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

Real Estate

Classes on the Madrid and London campuses

Objectives

The MSc in Real Estate will provide you with the necessary skills and networking opportunities to succeed in this fascinating and competitive sector, in an international business context. Taught by world-renowned faculty and guest expert practitioners, participants will receive a cutting-edge education combining theory with real-world practice to become leaders in the industry.

Career opportunities

At national or international levels: PropTech entrepreneur, Real Estate Big Data Analyst, Mortgage Broker and Analyst, Real Estate Asset Manager, Valuation Analyst, Development Analyst, Investment Analyst, Acquisitions Associate.

Curriculum

The MSc in Real Estate will train you to manage projects in an international business context. The specialisation makes significant use of inductive teaching methods and interactive activities (project simulations, case studies, business plan development, etc.). This guarantees the skills acquisition needed to work in multidisciplinary, international and multicultural teams. The courses address both theory and real-life applications with a practical approach to real estate:

Smart Cities and Urban Planning • PropTech and Innovation • Real Estate Consulting • Real Estate Investment Funds • Real Estate Capital Markets • Real Estate Big Data and Analytics • Real Estate Finance and Investments • Real Estate Technology • Real Estate Development • Real Estate Project Management • Real Estate Law • Culture and Heritage in Real Estate

Skills: Negotiation / Communication / Data Analysis / Digital Transformation
Field Trips & Site Visits • Live Case Studies.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Key Aspects of the specialisation

- A multicampus programme that brings together leading professional perspectives and intercultural experiences
- Field trips to major European capitals
- A "learning by doing" programme to develop your professional skills, network and career
- A personalised experience with world-class faculty, professionals and staff members

Faculty

Our world-renowned faculty are internationally recognised academics and real estate professionals who combine theory with real-world practices to prepare students to become leaders in the industry.

Strategy & Organisation Consulting

Classes on the Paris Campus

Objectives

This specialisation enables students to join the world of management consulting, digital transformation and information systems. It is also possible to join large organisations facing major organisational changes. It prepares students to become consultant, training them to design and implement strategic projects that integrate the organisational and managerial challenges of a company. The teaching approach combines both theoretical concepts and practical skills, in order to give students the necessary tools to jump straight into the job market.

Career opportunities

Graduates work in positions such as: Consultant, Project Manager, Business Analyst, M&A Consultant, Organisation and Management Project Manager, Internal Consultant, etc.

Curriculum

A combination of theory classes and of live practical cases:

- **Strategy & Organisation:** Corporate & Business Strategy, Information System Strategy & Management, Organisation Design, etc
- **Key Business Functions:** Accounting, Finance, Marketing, Supply Chain Management, etc
- **Managerial Skills:** Team Management, Communication Skills, Negotiation,...
- **The ability to conduct a consultancy project in a fastchanging environment:** company live cases, business games.
- **Digital Transformation:** Design Thinking, Digital Literacy, Lean Project Management, UX Design,...
- **Knowledge of the corporate consulting and professional service firms**
- **The ability to direct large-scale strategic projects and implement major changes within companies**
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

Consulting workshops

An immersion in the consulting world to gain hands-on experience

During the year, more than 10 consulting firms provide students with live case studies to train them and help them develop their own approaches. It allows students to be fully immersed in the consulting world in a professional manner. Students are also invited to carry out a consultancy project on behalf of a real client in the context of an assignment that lasts several months.

Class of 2021 background

Class of 2019 job survey

Digital Transformation Management & Leadership

Classes on the London and Paris campuses

Objectives

The MSc in Digital Transformation Management & Leadership is an ideal platform for those interested in working in digital transformation and technology projects and settings, in both corporate and startup scenarios. The specialisation is specifically designed to help participants prepare for key roles in the management of business innovation, allowing them to meet the increasingly important yet complex business challenges related to digital transformation and frontier technologies.

You should consider joining this specialisation if you want to immerse yourself in a highly practical learning environment. Through a combination of company consultancy projects, practical seminars and interactive lectures, you will learn about the business of AI, Big Data, 3D Printing, IoT, Social Media, Blockchain and Robotics; as well as the processes linked to these technologies, such as automation, business analytics, project management, financing and more.

Career opportunities

This specialisation is driven by employment trends and will suit individuals who are looking to enter strategic and holistic roles related to technologies across many industries.

Top 3 graduate job titles: Consultant, Analyst and Project Manager

In which sectors: 44% Management Consultancy, 25% IT & Technology, 13% Banking & Finance, 12% Fashion, Luxury & Cosmetics, 6% Advertising & Communications

Hiring Companies (Class of 2021):

Accenture - UNIQLO - Wavestone - L'Oréal - El Technologies France - Orange - KPMG - Xiaomi Technology - BearingPoint - Deutsche Bank and many more...

Curriculum

The specialisation's innovative curriculum is based on three pillars, incorporating extensive practical experience:

- **Cognitive Skills & Leadership:** Megatrends: Understanding How the Future Unfolds | Creative Thinking | Social, Political & Ethical Dimensions in Digital Transformation | Leadership & Cultural and Emotional Intelligence
- **Digital Technologies:** Business of Frontier Technologies I: Artificial Intelligence, Cryptocurrencies & Blockchain| Industry 4.0 & Smart Integrated Technologies | Big Data & Business Analytics | Business of Frontier Technologies II: Machine Learning, 3D Printing, Robotics & Internet of Things
- **Transformation Management:** Digital Transformation & Business Strategy | Change Management | Management in the Era of Digital Transformation | Management of the Digital Transformation Processes | Project Management
- **Two specialisation tracks:** Financial Services (Fintech | Financial Markets, Institutions & Regulations) or Industry & Automation (Operations Strategy and Management in the Fourth Industrial Revolution | Automation, Robotics and Flexible Manufacturing Technologies)
- **Professional Experience:** 12-week Company Consultancy Project | Minimum 4-month internship or direct employment | Industry Research Report (Master Thesis)
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

*Master of Science (MSc): £14,000 + specialisation: £8,200.
Additional fees may apply for applicants with fewer than 240 ECTS credits.

Industry Transformation Management

Classes at ESCP Paris Campus & CentraleSupélec Saclay Campus

Objectives

This specialisation is designed to train future industry leaders by developing both their leadership skills and industry knowledge. Furthermore, it aims to stimulate innovation in the industry sector through digital transformation, in order to deliver on high expectations in this field.

The exclusive alliance between CentraleSupélec and ESCP Business School, brings together two world-renowned institutions that are experts in their respective fields. Students will benefit from CentraleSupélec's industry sector knowledge based on engineering science and industrial management as well as from ESCP's well-established expertise across the business management spectrum.

Courses will be taught by top professors from both institutions allowing students to experience both campuses located in Paris and Saclay. They will also benefit from the support of both schools.

Career Opportunities

This Master is suited for those who are considering a career in the Industry Sector. The specialisation prepares graduates for professional roles such as: Industrial Manager, Product Line Manager, Project Manager, Consultant, Production Manager, Lean Manager (...)

Curriculum

Following an induction seminar designed for students to meet one another and create a group dynamic for the year ahead, they will follow fundamental courses:

- **Industrial Systems Projects & Management (CentraleSupélec)**
- **Complexity & Systems Management (ESCP Business School)**
- **Industrial Efficiency & Lean Management (ESCP Business School)**
- **Change & Transformation Management (CentraleSupélec)**
- **Data Management (CentraleSupélec)**
- **Industry 4.0 (CentraleSupélec)**

During Term 3, students will have to choose a track amongst:

- **Supply Chain 4.0 (CentraleSupélec)**
- **Management for Future Industry (ESCP Business School)**
- **Industry Disruptive Thinking (ESCP Business School / CentraleSupélec)**

They will benefit from courses and skills to sustain their own career choices.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

These courses will provide students with the fundamental skills to analyse and manage industrial environments.

They will also follow a specific module to improve and develop their leadership and managerial skills.

Master Thesis

Each student will have to defend his or her thesis, based on both academic and field experiences.

They will be mentored by a professor from one of the two partner schools.

They will then defend their work in front of a jury composed of the thesis director (professor) and one of the academic directors. The jury will represent both schools to deliver the degree.

During this time, students will also participate in a mandatory Research Seminar held by a ESCP professor. This seminar represents 3 ECTS credits of the total of 90 earned over this academic year.

Strategy & Digital Business

Classes on the Berlin and Paris campuses

Objectives

In this programme, you will learn the strategic, digital and entrepreneurial skills for the job markets of today and tomorrow. Based on strong cooperation between business practitioners and our world-class faculty, you will acquire skills in core areas such as strategy, complex problem-solving and decision-making. You will also focus on two fields which we believe are crucial for being competitive in the future: digital literacy and the ability to code, as well as an in-depth understanding of the Chinese market. Studying in the European entrepreneurial powerhouses of Berlin and Paris, you will gain comprehensive theoretical and practical insights which will equip you for a career in the world of strategy, consulting and digital business creation.

Career opportunities

As digitalisation is one of the main strategic priorities for most companies today, the Master in Strategy and Digital Business (120 ECTS) prepares you for a career in strategy and consulting, but also as an intrapreneur who drives change processes in organisations or NGOs. In addition, the application oriented curriculum will support you in joining an established start-up, or even founding your own company.

Curriculum

A combination of theory classes and of live practical cases covering the areas of:

- Managing Emerging Technologies
- Techniques for Complex Problem-Solving and Decision-Making
- Critical Thinking and Communication Skills
- Strategic and International Management
- The Chinese Market and Doing Business in China
- International Entrepreneurship
- Research Methods, Complex Systems and Organisational Change
- Language Courses and Career Development

This master programme is the right choice if you want to...

- Be equipped for a more digital and global job market
- Work in an international and entrepreneurial context or become a strategy consultant
- Develop a strategic and international mindset
- Push thinking on how digitalisation will change and influence the economy
- Meet inspiring teachers, company representatives and peers who share your passion
- Receive a renowned degree from a highly-ranked business school

Innovation & Entrepreneurship

Classes on the Paris and Berlin campuses

Objectives

Acquire the essential tools and reflexes to launch an entrepreneurial project, thanks to a teaching method combining theory and practice. We will provide you with the founding principles to become an innovative and responsible entrepreneur.

Career opportunities

- Launch your own start-up
- Join a company as an intrapreneur
- Progress within the entrepreneurial ecosystem (Incubators, Venture Capital, Business Angels, Investors, etc.)

Curriculum

The programme is based on two main lines: a theoretical basis and a practical application.

The focus is placed on:

- **The Essentials:** Marketing, Finance, Negotiation, Law, Human Resources, Rhetoric, etc.
- **Venturing Machine & Entrepreneurial Track:** an exclusive course dedicated to innovative business creation
- **Digital Track:** Application Design, Web Development, Growth Marketing, Product Strategy and Onboarding, etc.
- **Creative Approach:** Creativity Marketing, Design Thinking, Entrepreneurship, etc.
- **Live Cases:** a hands-on consultancy assignment for a week in a start-up
- **Connecting with the entrepreneurial ecosystem:** join an incubator, find fundings for your project, network in the Start-Up ecosystem, participate in our CEO-talks, pitch your project during the Innovation & Entrepreneurship Awards, etc.

Throughout the year, students are supported and coached by professionals in the field to launch their own business projects.

Sustainability Entrepreneurship & Innovation

Classes on the Berlin and Paris campuses

Objectives

Business as usual is over! If you aim to take on pressing global issues within established companies and industries, start-ups, or as an entrepreneur, the Master in Sustainability Entrepreneurship and Innovation (120 ECTS) provides you with the necessary skills to succeed. The objective is to **help value-driven, ecologically and socially responsible entrepreneurs in developing business plans and models** that rethink the way the world does business. This programme opens up alternatives to traditional corporate careers: become a social entrepreneur in your own start-up, or within established companies and industries.

With this programme you will benefit from ESCP academic expertise in the fields of:

- entrepreneurship and sustainability research (SustBusy Research Centre, Jean-Baptiste Say Institute, and the Blue Factory)
- teaching (Master in International Sustainability Management, Executive Master in Digital Innovation and Entrepreneurial Leadership) ESCP programmes have a strong focus on pragmatic relevant tools and methods.

Career opportunities

This programme fosters a solid understanding of the complex relationships between business, the natural environment and society, and how entrepreneurial approaches can make positive contributions. The Master in Sustainability Entrepreneurship and Innovation provides the skills to create job profiles based on your personal interests. Your future working environments will be "hybrid", for-profit organisations, NGOs as well as corporate spinoffs or business development units.

Curriculum

The programme builds on a theory-based understanding of sustainability entrepreneurship and innovation. Additionally, you have the opportunity to gain hands-on experience throughout the whole programme.

The courses include:

- **Sustainability Entrepreneurship**
- **Values-Based and Sustainability Innovation**
- **Problem solving and communication**
- **Entrepreneurial Finance, Accounting and Marketing**
- **Leadership Skills, Teams and Collaboration**
- **Project Management and Consulting**
- **Business Modelling, Sustainable Lifestyles Venture Project (together with UNEP)**
- **Internship or Business Development Project**
- **Research Methods, Managing Complex Projects**
- **Language Courses and Career Development**

This master programme is the right choice if you want to...

- Assume the important role entrepreneurs and intrapreneurs can play in **sustainable transformation of markets and society**
- Focus on the ethical and practical implications of **ecologically- and socially-responsible entrepreneurship**
- Work in an **international context**
- Engage in developing your own business models and become a change agent in new and existing organisations
- Meet entrepreneurs, teachers and researchers who share your passion for next generation business approaches
- Add value to your CV by leveraging the highly ranked ESCP Business School

Auditing & Consulting

Classes on the Paris Campus

Objectives

With this specialisation, we intend to give our students a 360° view of the auditing and consulting world and give them both the professional skills and the know-how to excel in an international context.

Starting positions

Graduates of the MSc in Auditing and Consulting work in auditing in international practices which offer fast-track, bright careers for highly motivated people. They may also choose to branch out into other sectors: working in a consulting practice, in the finance services of international corporations or banks, or in the internal auditing department of a multi-national corporation.

Where Graduates work

Deloitte • EY • KPMG • Mazars • PwC • Grant Thornton • BNP Paribas • Société Générale • Saint-Gobain • etc.

Curriculum

Beyond the teaching of technical knowledge, this specialisation promotes an enterprising spirit, a sense of responsibility, networking, and team work.

A combination of theory and of live practical cases:

- **Financial Audit**
- **Internal Audit and Control Systems**
- **Financial Accounting**
- **Mergers and Acquisitions**
- **Corporate Finance**
- **Business and Tax Law**
- **Cost Analysis and Management Control**
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

Financial Management (CFO)

Classes on the Paris Campus

Objectives

The aim of this specialisation is to develop skills to prepare students for corporate finance positions, such as Financial Director or Chief Financial Officer (CFO).

The main learnings, focused on economic and financial management, foster a real expertise and develop skills in operational management, by taking into consideration the strategic and managerial stakes of an organisation. This MSc allows you to become an expert in the field, and reach high positions, particularly within finance departments.

Career opportunities

Graduates work in positions such as Head of a Business Unit, CFO, Business Analyst, Financial Controller, Finance Consultant, etc.

Curriculum

With a hands-on approach, the specialisation focuses on both academic excellence and companies' operational issues. **The specialisation explains corporate finance and its link with strategic and operational management. It is structured around 4 pillars:**

- **Finance:** Corporate Finance, Financial Engineering, Financial Analysis, Valuation, Cash Management, Financial Management Transformation
- **Financial reporting:** Financial Reporting under IFRS, Group Financial Reporting
- **Economic Performance Management:** Cost Analysis and Control, Management Control, Supply Chain Performance, Risk Management and Internal Control
- **Management:** Strategy, Management, Negotiation

Aside from these technical aspects, this specialisation prepares students for job interviews with professionals and for teamwork. Approximately 30% of the courses are taught in English.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Finance

Classes on the Paris and London campuses

Objectives

The Master in Finance's goal is to shape experts in **investment banking and capital markets** who are able to progress rapidly in international professional environments. The full-time intensive format of the specialisation provides students, after a comprehensive period of study, with immediate access to high-ranked positions in the finance industry.

Starting positions

Graduates work in all positions available in the world of finance:

- Sales, Traders, Market Makers, Quants, Structurers
- Equity Research, M&A, ECM, DCM, Leveraged Finance, Structured Finance, Financial Advisory
- Regulators, Risk Management, Rating Agencies

Curriculum

After refresher courses in Maths and Accounting, the specialisation is divided into two terms. The technical courses are complemented by a soft skills training to prepare students for the recruitment process post-graduation.

6 weeks in Paris are dedicated to core courses teaching fundamental finance concepts and skills:

- **Financial Economics**
- **Options, Futures and Derivative**
- **Business & Financial Markets News**
- **Financial Analysis and Evaluation**

24 weeks (including 15 weeks on the ESCP London Campus) dedicated to one of two specialisations:

- **Corporate Investment Banking**
- **Financial Markets**

Both specialisations are business oriented and focus on applied courses.

- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

International Wealth Management

Classes on the Paris and London campuses

Objectives

Enable students to master the essentials in key aspects of international wealth management such as law, finance and tax in an international environment. Develop an understanding of the cross-border issues, ethics and psychology involved in the wealth management.

Career opportunities

Graduates work in positions such as: Independent Financial Advisor, Risk Controller, International Product Manager, Junior Private Banker, Portfolio Manager, Notary, Heritage Planner, Lawyer, Etc.

Curriculum

In addition to technical knowledge, the specialisation develops students' entrepreneurial spirit, learning to take responsibility as well as networking and teamwork skills.

It addresses the following areas:

- Introduction to Finance
- Compliance - Deontology
- Portfolio Management & Asset Allocation
- Law & Taxation of Private Assets
- Alternative Investment Strategies
- Global Estate Planning: Life Insurance, Real Estate, Trusts
- Wealth Strategies & Corporate Structures
- Alternative Investment Strategies

In addition, students develop a Capstone Project in partnership with Lombard Odier Bank.

The results of each group's work are presented to a jury composed of ESCP professors and members of Lombard Odier Bank, with the best being awarded a prize offered by Lombard Odier.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Biopharmaceutical Management

Classes on the Paris and London campuses

Objectives

The aim of this specialisation is to educate doctors, pharmacists, biotech and IT engineers or those with PhDs in life sciences, preparing them for business careers in the healthcare industry. Business professionals as well as lawyers with a strong interest in the Biopharmaceutical sector may also apply for this specialisation.

The specialisation allows students to access high level positions in healthcare-related industries such as venture capital, consulting and digital marketing agencies.

Career opportunities

Consultant, Entrepreneur, Venture Capitalist & Asset Manager, Data Scientist, Medical Science Liaison, Digital Marketing & Product Manager, Market Access Specialist, Business Developer, Public Affairs & Key Account Manager, etc.

Curriculum

Classes are taught by both faculty from ESCP Business School and successful professionals from major Biopharmaceutical, MedTech, Consulting and Big Data companies.

A combination of valuable academic teaching, practical cases and company projects, including:

- Market Access & Global Pricing
- Digital Communication, Marketing & Social Media for the Healthcare Industries
- Prospective Analysis & Biopharma Corporate Strategy
- Entrepreneurship & Innovation Management in Biopharma
- Business Analytics & Big Data Management
- Medtech & Medical Devices
- Management, Financial Reporting & Management Control
- Business Development & Finance for the Biopharma Sector

3 specialisation tracks: International Pharmaceutical Marketing Management, Biotechnology/Finance & Venture Capital, Consulting/Big Tech & Data Management.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Energy Management

Classes on the London and Paris campuses

Objectives

The MSc in Energy Management provides students with a holistic, 360-degree view of the energy business. The specialisation covers renewable and alternative energy, sustainability, electricity markets and oil business, as well as gas and LNG markets, focusing on providing participants with the essential toolkit to manage real-life projects in the energy-transition era.

This specialisation is accredited by the Energy Institute (EI) for the purposes of fully meeting the requirements for MEI.

Starting positions

This master will be suitable for those who are considering a career in:

Consulting/Project Management, Investment Banking, Trading, Asset/Portfolio Management, Risk Management, Energy Policy, Market/Business Analysis, Brokering and Operations.

Curriculum

This programme is built on three pillars, incorporating extensive practical experience:

- **General Management:** Principles of Finance | Corporate & Business Strategy | Operations & Supply Chain Management | Energy Economics
- **Energy Fundamentals:** Oil & Gas Business | Renewable Energy | Electricity Markets | Energy Markets & Other Commodities | Energy Policy | Gas & LNG Markets
- **Managerial Challenges in Energy:** Sustainability & Energy | Energy Trading | Project Financing & Evaluation | Energy Risk Management | Entrepreneurship & Innovation | Digitalisation & Energy Transition
- **Seminars (Compulsory):** Problem Solving & Decision Making | Data Analysis | Business Consulting | Blockchain Technology | Energy Security & International Politics | Research Methods | Python Programming Language
- **Two specialisation tracks:** Finance & Investment or Project Management & Consultancy
- **Integrated Practical Experience:** Energy Trading Challenge | Company Consultancy Project (8-12 weeks) | Min. 4-month Professional Experience (Internship / Direct Employment) | Professional Master Thesis
- **Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.**

International Sustainability Management

Classes on the Berlin and Paris campuses

Objectives

Your career will make a difference! Join an international student body in the Master in International Sustainability Management programme (120 ECTS). Study in Berlin and Paris at ESCP to benefit from the scientific expertise of its SustBusy research centre and acquire specific knowledge in sustainable and responsible management: ecosystems Science and climatology, sustainability culture, sustainable supply chains and CSR reporting, as well as general management content with a strong global dimension.

Career opportunities

As a sustainability professional, you will be able to work in green sectors such as energy, technology or food, in strategy or marketing departments, for consultancies or NGOs. We will also enable you to found your own startup and become a social entrepreneur.

Curriculum

A combination of theory classes and of live practical cases covering the areas of:

- Environmental and Sustainability Management
- Science & Economics
- Frameworks for a Sustainability Transition
- Society, the Developing World and the Financial Dimension
- Sustainable Governance & Management in an International Context
- Project Management & Consulting
- Research & Complexity
- Language & Career Development

This master programme is the right choice if you want to...

- Gain a broad knowledge of sustainability, qualifying you for a management position in this field
- Gain a holistic understanding of environmental issues and climate change with a sound scientific basis.
- Push global rethinking on sustainable management and business models
- Meet experts, company representatives and peers who share your passion
- Enhance your personal skills for systematic career development in sustainability
- Add value to your CV by leveraging the rankings and reputation of ESCP Business School

Key Academic Area overview

Sustainability is a Key Academic Area on the ESCP Berlin Campus. It includes various study programmes, research projects and Berlin Campus' activities in the pursuit of itself of becoming a sustainable organisation itself. This Key Academic Area is devoted to finding answers to essential questions within the field of sustainability entrepreneurship and management.

Management of Cultural & Artistic Activities

Classes at Venice, Ca' Foscari University and on the Paris Campus

Objectives

The expectation of companies in the cultural and editorial sectors is to recruit high-level managers who are able to develop, launch and manage cultural and editorial productions. Digital technology has deeply transformed these sectors. Cultural contents are now at the heart of this change: new practices of cultural consumption, new legal issues with big data, new media reading, new funding practices, new channels of financing, new sales methods, etc.

This programme will help you understand the specificities of managing cultural projects on international and european scales.

Starting positions

Graduates work in positions such as: Cultural Project Manager, Editorial and Digital Project Manager, Production Manager, Digital Development Officer, Cultural Heritage Manager, Patronage Manager, Editorial Manager, Rights Transfer Officer, Marketing Manager, etc.

Curriculum

The MS combines both theoretical courses and real case studies. The Faculty includes professors from ESCP Business School, Ca' Foscari University and professionals from the culture and publishing sectors. They provide students with a solid background in management applied to the following sectors:

- Project Management and Strategy for Cultural Industries
- Law and Economics for Art and Culture
- Arts and Culture Marketing
- Finance and Accounting for the Cultural and Publishing Industries
- Valuation of Cultural Assets

The programme offers two specialisations:

- **Culture:** Management of Cultural Projects | Cultural Policies | Heritage
- **Digital Publishing:** Management of Editorial Projects | Editorial Techniques | Paper and Digital Publishing

This programme is only accessible to students who have **the equivalent of 300 ECTS credits (Master 2)**. We encourage students to learn Italian as some lessons may be taught in this language.

Media Management

Classes on the Paris Campus

Objectives

The goal of the MSc in Media Management is to prepare media professionals for their future careers: management and strategic consulting applied to the media, film or television production and distribution, transmedia production, digital entrepreneurship, audiovisual writing and media consulting.

Career opportunities

Graduates work in positions such as: Programming Director, Film Producer, Scriptwriter, Entrepreneur/Intrapreneur, Transmedia Project Manager, Community Manager, Manager in charge of Development, Strategic Studies Manager, Advertising Sales Manager, Media Strategy Consultant, ...

Curriculum

A combination of theoretical approaches and of live practical cases.

The focus is on:

- Media Management
- Management Techniques applied to Media
- Innovation in the Audiovisual Sector
- Big Data and Media Companies
- Film Production
- Creativity Management and Entrepreneurship
- Cross-Media Strategy
- International Film Distribution
- Audiovisual Writing Techniques

Breakfast series

In addition to the areas mentioned above, students regularly organise "Press Club Breakfasts": an opportunity to meet figures and professionals from the Media world and to discuss current issues.

Students will also take a compulsory seminar on Ethics, Environmental, Social & Corporate Governance.

Student Life

A strong sense of school spirit and community is a defining characteristic of ESCP Business School. Involvement in extra-curricular activities and student associations is strongly encouraged; we consider it an essential part of students' personal well-being and professional development. Student life on each of the campuses is shaped by the initiatives and activities offered by some fifty clubs and associations that organise networking, artistic and cultural events, political discussions, sports tournaments, social events, humanitarian activities, etc.

Some examples of Student Societies:

The ESCP Business School Regatta: Students and Alumni sail together

The ESCP Regatta symbolises what ESCP is all about. Once a year, students from all campuses, as well as members of staff, faculty and alumni, gather in Italy for a weekend at sea. The event is a unique opportunity to maximise the potential of a multi campus school and to strengthen and broaden the group spirit key to the ESCP community.

The ESCP Regatta has become a landmark in the School's sporting, networking and social calendar. Hundreds of participants sailed together in 2019, manning several yachts around Porto Rotondo, Italy.

Working in teams to take first place, the event allows for excellent group bonding and the continued development of teambuilding skills.

The ESCP Business School Regatta: Students and Alumni sail together

In Paris, Specialised Masters and MSc students are based on the Montparnasse campus. Created 2 years ago, the MS Society aims to bring together all the MS and MSc students studying on the Paris campus.

The society organises various on and off-campus events every year.

The ESCP Business School Regatta: Students and Alumni sail together

Elected by the students, the Student Union plays an important role within the school. Agora bridges the gap between the student body and the School Administration on the different campuses. It provides a forum and proposes ideas on a wide range of topics related to Student Life at ESCP. The Student Union also organises social events which encourage networking amongst different year groups, programmes and nationalities.

The ESCP Business School Regatta: Students and Alumni sail together

ESCP Social Club in Berlin and Event Society in Madrid (ESM) organise various events on and off-campus. Organised by students for students, these societies aim at bringing together students across our various campuses as well as strengthening the cross-cultural dimension and exchange within the School.

The ESCP Business School Regatta: Students and Alumni sail together

ESCP Social Club in Berlin and Event Society in Madrid (ESM) organise various events on and off-campus. Organised by students for students, these societies aim at bringing together students across our various campuses as well as strengthening the cross-cultural dimension and exchange within the School.

Alumni & Students' Testimonials

Marketing & Creativity (page 10)

Koen de Rooij

Class of 2015

Associate Director at Kantar Consulting

"Looking back now, the first thing that comes to mind is the strong bond we developed as a class. Around 30 different nationalities and cultures, thrown together on a mission. Working hard, playing harder, putting our collective creativity into everything we did and amazing ourselves when looking at each other's work. This could be either on or off the campus – imagine having a lecture inside the Palais Garnier or at Regent's Park – or doing actual consultancy work for a company, like our team did for Landor."

Digital Project Management & Consulting (page 13)

Teresa Ko Chen

Class of 2015

Consultant at The Boston Consulting Group

"This Master offers a unique learning environment where both critical and creative thinking are fostered. The tailored workshops, interactive classes, international consulting projects and especially, my professors and classmates, were without doubt the key elements that made it a remarkable experience."

Marketing & Digital Media (page 11)

María Luisa Austad D Vasconcelos E Sousa

Class of 2018

GBS Strategic Account Manager, Facebook EMEA Headquarters

"One of the best career moves I made was joining ESCP for this Master. I wanted to work for a tech company, but felt that I lacked the knowledge to do so. This master opened so many doors in that respect. I acquired an immense amount of digital knowledge thanks to my professors. Not to mention that you get to do all this in vibrant and exciting cities such as Madrid, London and San Francisco while being part of a diverse and fun class. If I could go back in time I wouldn't change a thing."

Strategy & Organisation Consulting (page 16)

Marie-Sophie Pelletier

Class of 2014

Consultant at Talan

"After an engineering degree and a year of professional experience, I realised I was lacking management experience and skills. So I decided to do this programme that matched my expectations. The MSc taught me a lot thanks to the diversity of the profiles in my Class, but also through the diversity of the teachers. This programme prepared me for my current job because the contact with many professionals allowed me to better understand my professional field, and above all, helped me to choose the right one! Therefore, this Master helped me discover new areas and made me more open-minded."

Sales 4.0 – Master in International Sales Management (page 12)

Constance Pfeiffer

Class of 2018

Solutions Sales Executive at SAP

"When I look back to the starting point of my career, I look back at my two year experience at ESCP, where I started my journey. Those years built the foundation for the necessary mindset, skill-set, know-how and expertise I am continuously developing today in my current job. Getting the opportunity to interact with international, diverse young students, all eager to learn and to fulfil their individual business goals as well as with professors, tutors and esteemed professionals in the field, creates an incredible synergy and drive, that leads to a tremendous progression of each students' personal career."

Big Data & Business Analytics (page 17)

Alexis Barnier

Class of 2018

Strategy Consultant at Adventon Business Partners

"This programme is perfect for future managers with a strong appetite for disruptive technologies and data-driven strategies. What I probably like the most is the diversity of the students and the variety of ideas they have. If you want to challenge yourself in a global environment while becoming a data specialist, then this is the right master's programme for you."

Innovation & Entrepreneurship
(page 20)

Daria Chernova
Class of 2019
Co-Founder MADAMN

"After 5 years of experience in big companies, I wanted to get into entrepreneurship, but I didn't know where to start. This year was extremely rich. You learn, the theoretical bases that are essential for setting up a company from scratch, but above all you learn to innovate and go beyond the limits you set yourself.

I met my partner in my class and we decided to launch MADAMN, an innovative media that highlights the career paths of exceptional women. We were given amazing support during the creation of our project by the MS teams as well as the entire ESCP ecosystem."

Energy Management (page 28)

Isaac Junior Pete
Class of 2015
Senior Project Manager - Strategy & Finance at Total EV Charge

"Going into this Master, I had a clear vision: I knew I wanted to develop the skills that would help me become a strong strategy consultant for the energy industry. During my 18 months at ESCP Business School, I achieved exactly what I set my mind to. Some modules provided me with the basic consulting skills while others gave me more insights about the key factors that make the energy industry so unique and therefore, so fascinating."

Media Management (page 31)

Gauthier Hourcade
Class of 2009
Deputy Director of Programmes in charge of editorial, RTL

"I joined the MSc in Media Management after 6 years of professional experience. I was a radio producer, and I had a Master. I wanted to multiply my experiences but above all, to have a choice. To invent, to programme, to decide. But I experienced the spleen of the skilled worker who loves his job but not to the point of practicing it ad vitam aeternam. In this situation, the MSc Media brought me two assets. The first of them: to be "spotted" by the top management of my company. My admission at ESCP was enough to send a strong message to my superiors. Second chance, I spent the (black!) year of 2008-2009, at the top of this formidable watchdog programme. The crisis froze advertising investments, paralysed traditional media and accelerated digital innovations."

Sustainability Entrepreneurship and Innovation (page 21)
Maria Josefa Angela Bautista
Current Student (Class of 2021)
Philippines

"The Master is a great starting point for your career in making the world a better place. It will give you the tools you need to create a business, the network you need to make it fly, and the purpose within you to keep going. During my first year of study, ESCP helped me to launch my own social-impact startup which I've effectively used to drive social change amidst the challenges of the Coronavirus pandemic. ESCP supported me with my education but also so much more. This level of support is not something I think you'd find in any business school, and for that I'll always be grateful to ESCP."

Master in Finance (page 24)
Emmanuel Dray
Class of 1996
Global Head of Trading, Equity Derivatives, BNP Paribas
UK Head of Equity Derivatives, BNP Paribas

"I had always wanted to work in financial markets and the Master in Finance at ESCP clearly enabled me to fulfil my ambition. Following the Master, I was offered an internship on the BNP trading floor in April 1996 and I have been working with the same firm for the past 25 years. The Master not only provided me with deep sector knowledge through various courses, it also opened my eyes to the key factors needed to succeed in the industry: hard work, curiosity, rigor and humility. Through a very practical teaching style, networking opportunities with similarly passionate students and a pragmatic approach, students are well prepared for the challenges they will soon face in such a demanding working environment. Thanks again!"

International Food & Beverage Management (page 33)

Nuria Jareño Moreno
Class of 2018
Junior Digital Brand Manager, Nestlé

"This Master was the right bridge between my scientific academic background and the beginning of a business career in the food sector. The most important value for me was the exposure I received to multiple food and beverage companies. Being able to see the backstage of all these firms, helped me narrow down the career paths I was interested in pursuing after the Master's. Working with international students on multiple projects in the F&B sector provided me with interpersonal skills that have been useful for working in multi-cultural environments. I also profoundly relished the enriching experience of living in Italy and France, discovering parts of their gastronomical wealth, which has consolidated my willingness to work in this sector."

ESCP Alumni

ESCP Alumni is an international and rich network of +68,000 members worldwide. ESCP Alumni supports its members by boosting their career, developing their network and promoting the ESCP brand. We offer you professional services in several languages, as well as physical and digital links to stay connected and share your experience and expertise. ESCP Alumni have access to 50,000 job opportunities per year.

Each month we host a variety of networking and career events all around the world, aimed at bringing together our community.

ESCP Foundation

Launched by the alumni in 2005, the ESCP Foundation became a public utility foundation by a decree.

The Foundation's aim is to support the ambitions and the academic excellence of ESCP through four initiatives:

- Diversity and international appeal
- High-level research
- Teaching innovation
- Influence of ESCP worldwide

Choosing to study at ESCP is your first step towards an ambitious and exciting international career in today's diverse, diverse and multicultural business world.

Careers Service

The ESCP Careers Service helps students identify their professional objectives to ensure their career prospects. Located on each of the six campuses, the Careers Service provides students with the advice, data and tools to connect them to companies.

ESCP students have access to over 30,000 internship opportunities each year.

Through the Careers Service, students benefit from:

- **Career workshops and individual coaching**, personality and logic tests to identify strengths and motivations
- **Company presentations, seminars, conferences, roundtables and interviews with recruiters**
- **On-campus generalist and industry-specific job fairs** attracting over 130 companies throughout the year
- **Bootcamps on Consulting, Banking, Tech and Marketing led by ESCP Alumni** on how to be recruited by the leading companies in these sectors.
