150

A MEDICATION INTELLIGENCE™ PLATFORM FOR ALL HEALTHCARE PROFESSIONALS AND THE GENERAL PUBLIC

Synapse Medicine’s mission is to provide easy access to reliable, up-to-date and 100% independent medical information to everyone around the world.

Founded by healthcare professionals, Synapse Medicine is the leader in medication intelligence (MI). MI provides a comprehensive overview of drug-related information to facilitate decision-making by processing reliable data and updating it in real time. The technology adapts to each patient to prevent iatrogenic risks. Synapse Medicine supports all healthcare professionals such as physicians, pharmacists, telemedicine platforms, insurance providers, hospitals and care facilities.
