- Filled products ready to use
- Very quick to thaw out
- The filled products can be eaten warm or cold and are suitable for all occasions...
- From breakfast to dinner, through catering, buffets, grab&go

PAKATA

Snacking new concept

- A crepe made for snacking, manufactured with natural and local ingredients, more nutritionally balanced than other products (burger buns, paninis, wraps, etc.) : more digestible (2.5 times less carbohydrates), more protein, half the salt...
- A «turnkey» concept through the kit delivered : Pakata ® + cardboard boxes + food papers + description of the folding + recipes developed by our Chef William TRUONG.
- An infinite number of recipes possible : easy customisation using everyday ingredients, according to the seasons, both cold and hot.
- An ideal product for tasting in takeaway

- > Thaw and use

Our history

Since 1982, we have been manufacturing the finest recipes for crepes and galettes at the Crêperie Jarnoux. In 2001, we started our frozen range based on our existing expertise.

The new factory that opened in 2008 is entirely dedicated to the production of frozen products, under the brand Le Monde Des Crêpes.

Historic town
of Lamballe-Armor

Our commitments

*Located in the heart of
Brittany, we honor the
following commitments
in order to offer the
best products :*

- Respect for our expertise: natural recipes with no cage eggs, no additives, no food coloring, no palm oil, no GMOs...
- The quality of our ingredients, carefully selected and locally sourced: more than 65% of our raw materials come from Brittany.
- Ethical relationships with our suppliers: raw materials are bought directly from suppliers under multi-year contracts guaranteeing fair remuneration to farmers.
- Respect for the environment: we have achieved our «zero landfill» goal and found new ways to make use of all types of waste (recycling, fuel, recovered solids, methanation).
- Re-establishment of local buckwheat growing with environmental benefits (water quality, biodiversity, PGI, etc.).
- Solidarity: donations of products to charities.
 - > A historic CSR approach which has earned us the PME+ label for ethical SMEs from the FEEF (Federation of French Companies and Entrepreneurs).
 - > A guarantee of conformity in products and manufacturing processes certified by the IFS Food Standard.
